

Finally, healthcare covering your
entire family for less than \$2.00/day.

Join the Revolution.

Welcome to the Healthcare Revolution

About Us

MyHealthPass is revolutionizing the way healthcare services are delivered. Having MyHealthPass is like having your own healthcare clinic in the cloud.

We help our member's deal with everyday health issues providing individualized support and access to healthcare services that are affordable, accessible and easy to understand.

We are your Healthcare Clinic in the Cloud.

Healthcare in America has become "reactive". We typically only seek treatment once there is a problem. However, this is where the real challenges begin.

It is becoming more and more difficult to find a doctor. The national average time to simply get an appointment to see a doctor is in excess of 2 weeks. Once at the doctor, you spend longer times in the waiting room around others who are sick, than you do with the doctor.

With MyHealthPass, you gain access to speak to Board-Certified Physicians, licensed health coaches and professional health advisors as well as 24/7 access to online tools and services.

Services Included

- 24/7 Access to Doctors
- Personal Health Assessment
- Licensed Health Coaches
- Free Lab Testing
- Personal Health Advisors
- Medical Procedure Pricing Tool
- Prescription Assistance
- Individualized Nutrition Program
- Member Private Exchange
- HIPPA Complaint, Secure Member Area

Monthly Rates

Individual	\$24.95
Family	\$44.95

MyHealthPass is America's Pass to Personalized Healthcare.

The Healthcare Clinic in the Cloud.

We need an evolution in healthcare.

Healthcare in America Today

The cost of healthcare is rising, people are uninsured or underinsured, and Medicare and Medicaid are in crisis.

Why are costs going up?

- America has an aging population that is living longer.
- Most Americans live a sedentary life, leading to obesity.
- Cardiovascular disease from poor diets and other related illnesses.
- The price of prescription drugs.
- More and more of the healthcare costs shifting to the consumer.
- Lack of affordable access.

The Facts

- The combined cost of heart disease, cancer, diabetes, stroke, high blood pressure and osteoporosis is \$405 Billion a year.
- Economic costs of obesity-related illness topped \$17 Billion last year.
- Dept. of Agriculture estimates better diets could reduce health care costs by at least \$71 Billion a year.
- CDC estimates children with Type II Diabetes can expect to spend \$7,500 more per year for medical care than non-diabetic kids.

Did you know?

- 70% of Doctors visits can be handled over the phone.
- 2 Million Americans have Diabetes.
- 1 out of 3 Americans have High Blood Pressure.
- Depression is the leading cause of disability in the U.S.
- 2 out of 3 Americans are considered obese.
- 60% of all illness and disease can be caused by stress.

Don't have insurance to cover your prescription drugs?
Need help finding generic alternatives? MyHealthRx Assist can help.

A Real Prescription Drug Program

Prescription drugs account for over 11% of the overall U.S. health-care expenditures. In 2013, the top 3 most prescribed drugs increased in price an average of 9.3%, with an average monthly cost of over \$365 per prescription.

Roughly 100 million Americans qualify for some type of prescription drug assistance. The system is very difficult to navigate and may go without these valuable benefits. Are you one of them?

Locate. Compare. Save.

Our professional healthcare advocates will help you find the lowest price on prescription drugs, saving as much as 95% off retail. We can also help those members who qualify, get their prescriptions FREE directly from the drug manufacturers.

Make sure you are getting the absolute best price for your prescription drugs. You could save hundreds to thousands of dollars per year. Don't buy your prescriptions until speaking to us. To learn more, contact a MyHealthPass Associate today.

Features

- Savings of up to 95% off retail
- We search national and regional pharmacies
- Available to all family members
- No limits on usage
- Online pharmacy locator
- Online tool to find generic alternatives
- Access to mail-order savings
- Free and subsidized programs available

Developed by professionals with over 22 years of clinical experience treating over 10,000 patients suffering from back pain.

We even have your BACK covered!

First and Only Clinically Proven Digital Health Solution to Treat Back Health. No more deductibles or costly procedures. Healing low back pain doesn't have to mean co-pays, costly appointments or putting up with the pain. My Healthy Back is an easy to do 8-week online physical therapy program to heal low back pain that you can do from the comfort of your own home using any smart phone, tablet or computer.

Certified Back Pain Specialists

Consult with a health coach to personalize a program that meets your needs, ensures safety, and answer any questions you have. My HealthyBack's proven evidence based program combines the clinical science of core stabilization, yoga based stretching and mobility to help you prevent or recover from lower back pain in just 10 minutes a day.

Did you know?

- Lower back pain is the #2 reason people miss work, second only to the common cold
- 4 out of 5 people will suffer from back pain in their lives
- 33 million people experience some level of low back pain every day
- \$37 Billion per year, averaging \$8,000 per episode spent
