Get cash to help pay for dental checkups and treatment

Regular dental care can mean more than a brighter smile – it could also mean better overall health. Dental coverage from Time Insurance Company pays cash benefits when you have dental checkups and treatment – making it easier to keep up with regular visits to the dentist and lead a healthier life.

Abby's story

Abby is a 9-year-old who occasionally sneaks sweets and is far too energetic to spend two whole minutes brushing her teeth twice a day. So, her parents really have to focus on reinforcing good snacking and brushing habits, and they make sure to see the dentist every six months.

Having dental coverage – Intermediate plan – for the past two years has made it easier to pay for checkups. Abby's family receives \$100 for each preventive visit and, when Abby's dentist recently found a cavity, they also received \$110 to help pay for the filling.

Abby's parents paid less than \$92/month for Intermediate dental coverage for their family of four.

Not an actual case — presented for illustration only. Actual services and benefit may vary. Sample premium rate is for dental coverage - Intermediate for two 40-year-old adults and two children, residing in Tennessee.

Save even more with Careington

If Abby visits a **Careington** dentist, she can save an additional **20% – 50%** on preventive dental treatments.
