*For people who buy their own insurance*

# Maryland/Virginia Consumer Health Benefits 2016

## Know before you go

Your health, your money, your decision

 **PCP visits:** The lowest copays and the best option for consistent, quality care.

 **Caution:** Services on a hospital campus may incur a separate hospital charge.

 **Retail health clinics:** Low copays and after-hours care for minor health concerns.

 **Caution – Emergency room:** Highest out-of-pocket costs; explore other options for non-emergency care.

 **Labs/X-rays/Imaging:** Use non-hospital facilities for the lowest copays.

 **Caution:** These services will cost more if performed in a hospital.

 **Surgeries:** Non-hospital (ambulatory) surgery centers will save you money on many outpatient surgeries.

 **Generic drugs:** Always your lowest cost option; some are no charge and no deductible.

 **Caution:** For the lowest cost, always visit doctors who are in-network.

<sup>1</sup> Preferred Provider Organization (PPO) plans underwritten by Group Hospitalization and Medical Services, Inc.

<sup>2</sup> Point of Service (POS) plans underwritten by CareFirst BlueChoice, Inc. for in-network benefits and by Group Hospitalization and Medical Services, Inc. for out-of-network benefits.

<sup>3</sup> Health Maintenance Organization (HMO) plans underwritten by CareFirst BlueChoice, Inc.

<sup>4</sup> You receive up to 2 (BlueChoice Plus Bronze \$5,500) and up to 3 (BlueChoice HMO Young Adult \$6,850) non-preventive primary care visits without needing to meet a deductible.

<sup>5</sup> Prior authorization required.

<sup>6</sup> For family coverage only – For BlueChoice HMO HSA Silver \$1,350 and BluePreferred PPO HSA Silver \$1,600: The family deductible must be met before full benefits will be available to any member on the policy. Once the family deductible has been met, full benefits will become available to everyone covered. All other plans: If one member on the policy meets the individual deductible, full benefits will begin for that member. That member will not be able to contribute more than the individual deductible amount towards the family deductible. Once the family deductible has been met, full benefits will be available to all members on the policy.

<sup>7</sup> For family coverage only – When one family member meets the individual out-of-pocket maximum, their services will be covered at 100% up to the allowed benefit. Each family member cannot contribute more than the individual out-of-pocket maximum amount. The family out-of-pocket maximum must be met before the services for all remaining family members will be covered at 100% up to the allowed benefit.

<sup>8</sup> For HMO and POS plans: For in-network benefits, members must use LabCorp for laboratory services and freestanding facilities for diagnostic services and X-rays. Other providers/facilities may be used in POS plans but will be considered out-of-network.

<sup>9</sup> For HMO and POS plans: To receive in-network coverage, mental health and substance abuse coverage must be performed by Magellan behavioral health providers. Other providers may be used for out-of-network coverage for POS plans.

<sup>10</sup> All out-of-pocket drug costs contribute to the in-network out-of-pocket maximum.

<sup>11</sup> If a generic drug becomes available for a preferred brand drug, the preferred brand drug moves to the non-preferred brand drug tier.

<sup>12</sup> If a provider prescribes a non-preferred brand drug and the member selects the non-preferred brand drug when a generic drug is available, the member shall pay the applicable copayment as stated above plus the difference between the price of the non-preferred brand drug and the generic drug up to the cost of the drug. This amount will not contribute to the in-network out-of-pocket maximum.

<sup>13</sup> For non-routine obstetrical care or complications of pregnancy, cost-sharing may apply.

# CareFirst offers plans for every budget

CareFirst offers three different types of plans: Health Maintenance Organization (HMO), Point of Service (POS) and Preferred Provider Organization (PPO). The main differences between plan types are how much freedom you have when choosing providers and how much of the costs you will have to pay.

## DID YOU KNOW?...

CareFirst has the region's largest group or "network" of providers—doctors, hospitals and pharmacies—you can receive benefits and services from. To search for your doctor within our network, visit [www.carefirst.com/findadoc](http://www.carefirst.com/findadoc).

## To choose the best plan for your needs, you should:

### Understand metal levels

Under the Affordable Care Act (ACA) there are four categories of health coverage—Bronze, Silver, Gold and Platinum—called **METAL LEVELS**. All health plans fall into a metal level depending on the share of health care expenses they cover. For example, bronze plans have lower monthly premiums but you'll pay more out of pocket when you seek care. Platinum plans have a higher premium but feature lower out-of-pocket costs in the form of copays and charges for many services.

CareFirst offers plans in the following metal levels:

- Gold
- Silver
- Bronze

CareFirst also offers a Catastrophic plan for individuals under age 30, or individuals with a hardship exemption.

### Consider a Health Savings Account

A **HEALTH SAVINGS ACCOUNT (HSA)** is a tax-exempt medical savings account that can be used to pay for your and your dependents' eligible medical expenses. HSAs enable you to pay for eligible health expenses and save for future qualified health expenses on a tax-free basis. We offer five health insurance plans that coordinate with an HSA and feature higher deductibles and lower premiums.

### Look into financial assistance

You may qualify for one or both types of financial assistance (also called subsidies) from the government. One type of financial assistance will help pay your monthly premiums. If you qualify for this type of assistance, you can apply it toward the purchase of any plan—Bronze, Silver or Gold.

The second type of financial assistance helps reduce your costs associated with deductibles and copayments. To qualify for this subsidy, you must choose a Silver plan.

You can check our subsidy estimator at [www.carefirst.com/individual](http://www.carefirst.com/individual) to see if you qualify. For more information about financial assistance, please see page 17 in this book.

*Did you know that individuals earning up to \$47,080\* and a family of four earning up to \$97,000\* can still qualify for financial assistance to help pay for their health insurance premiums?*

## HEALTH CARE REFORM: UNDERSTAND AND AVOID THE PENALTY!

Avoid the penalty and enroll during Open Enrollment, November 1, 2015–January 31, 2016.

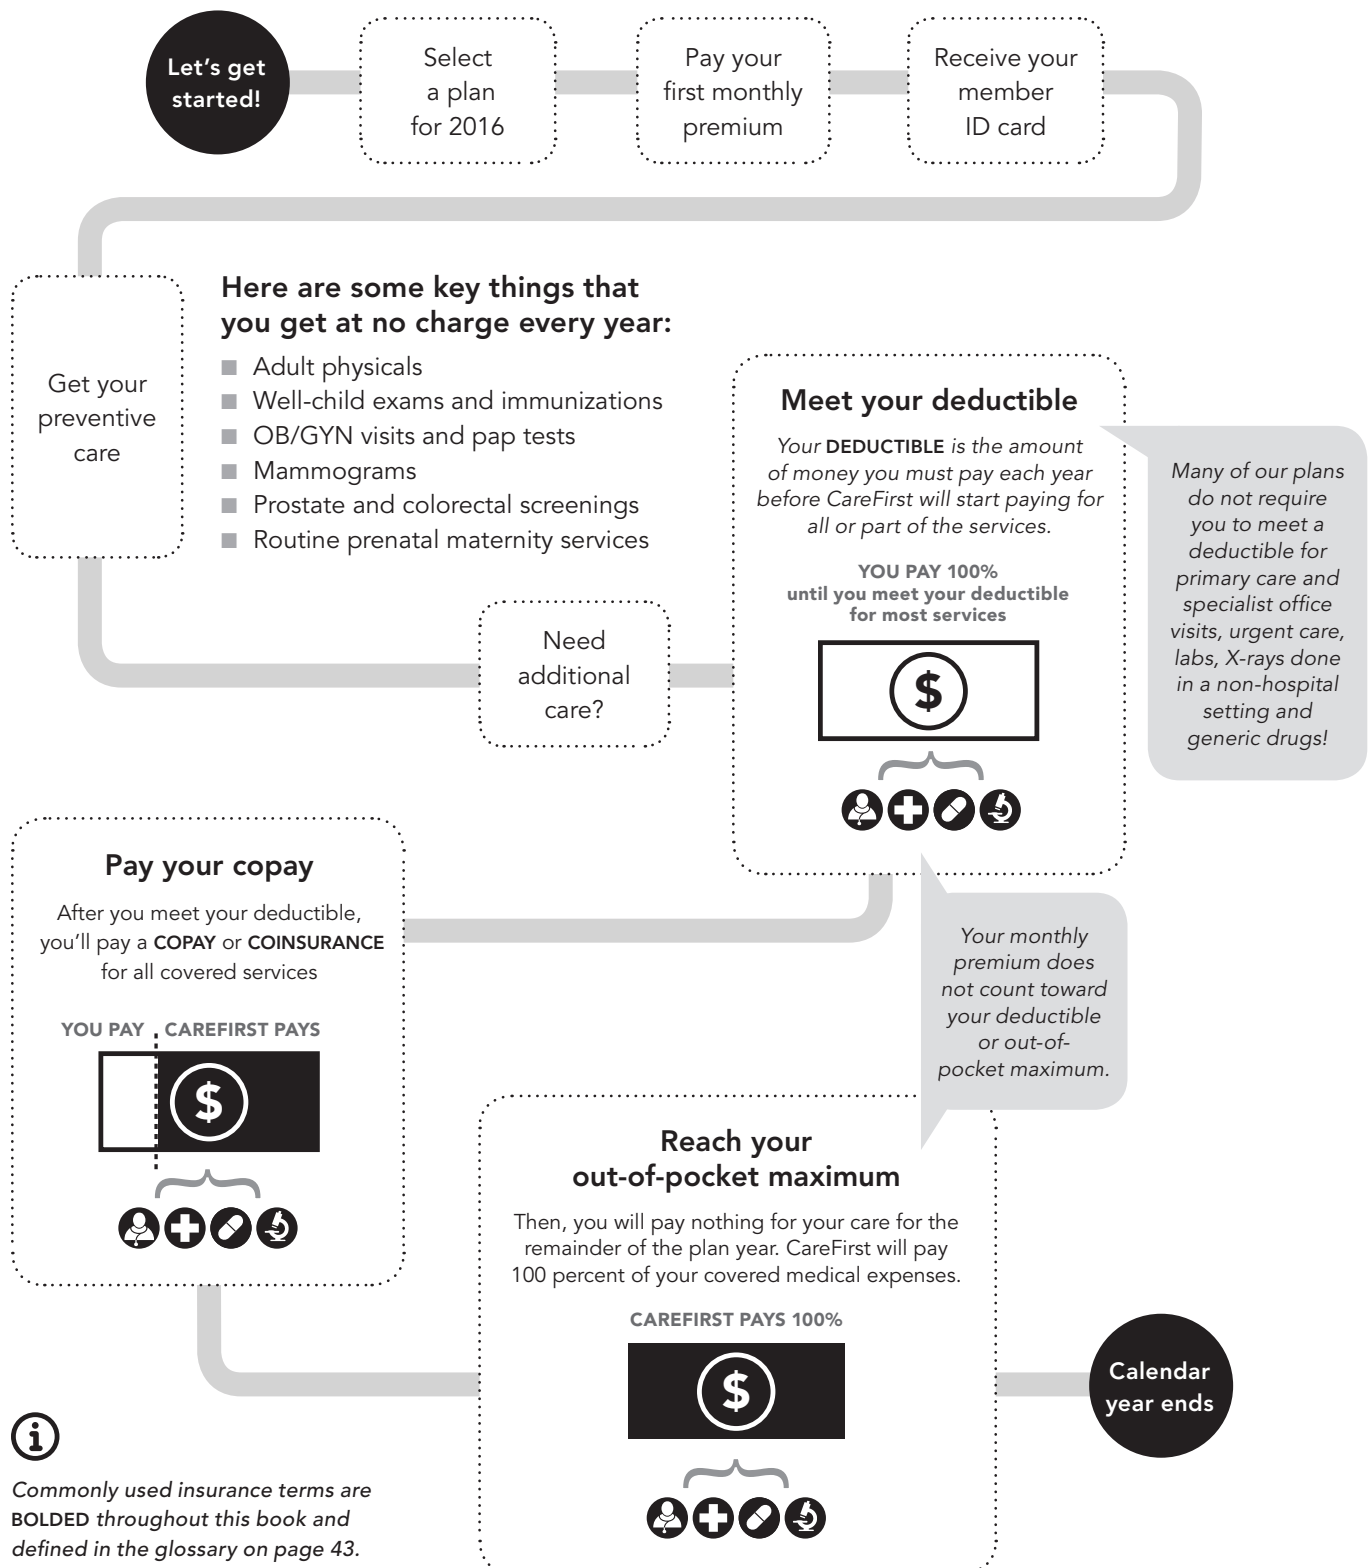

If you can afford health insurance and choose not to buy it, you must have a health coverage exemption or pay a penalty (also called a fee). If you don't have coverage in 2016, you'll pay a tax penalty equal to **\$695** per adult (up to a family maximum of **\$2,085**), or **2.5 percent** of your yearly household income; whichever is greater.

You'll pay the penalty on the federal income tax return you file for the year you don't have coverage.

# Learn how health insurance works

To help you choose the best health plan for your budget and your needs, it's important to understand a bit about health insurance. The graphic below explains how health insurance works and defines some key terms.

\*\* Family deductible and out-of-pocket maximum is double the individual deductible and maximum out-of-pocket.

\*\*\* Out-of-network—health care providers who have not contracted with CareFirst to provide services are out-of-network. Generally, HMO plans do not offer out-of-network services except for emergency care. PPO and POS plans offer out-of-network coverage with higher out-of-pocket costs.

\*CareFirst payments are based on the CareFirst Allowed Benefit. Participating dentists accept 100% of the CareFirst Allowed Benefit as payment in full for covered services. Non-participating dentists may bill the member for any amount over the Allowed Benefit. Providers are not required to accept CareFirst's Allowed Benefit on non-covered services. This means you may have to pay your dentist's entire billed amount for these non-covered services. At your dentist's discretion, they may choose to accept the CareFirst Allowed Benefit, but are not required to do so. Please talk with your dentist about your cost for any dental services.

\*\*Orthodontic services are subject to the deductible for the BlueChoice Young Adult \$6,850 plan only.

**Using Your Plan**

# Knowing where to go can save you money

Do you know where to seek appropriate medical attention? Knowing where to go when you need medical treatment is crucial to getting the best treatment possible while saving you time and money.

One of the best places to get consistent, quality health care is your **PRIMARY CARE PROVIDER**, also known as your PCP. Get started by visiting your PCP for recommended routine visits, which do not require a copay. If you have a medical issue, your PCP, who knows your health history, can help make getting the care you need easier and faster.

When your PCP is not available, you have many choices for care. Your choices for non-life-threatening medical care include **CONVENIENCE CARE CENTERS**—also known as **RETAIL HEALTH CLINICS** as

they are located inside a retail store like CVS, Target or Walgreens—or urgent care centers (for example, Patient First, Righttime and Doctors Express). Both convenience care and urgent care centers accept walk-in patients and can treat minor injuries and illness. Just keep in mind, where you decide to receive care has a direct impact on how much you will pay for those services.

The graphic below shows how your costs vary based on where you choose to get care.

CareFirst members also have 24/7 access to FirstHelp™, our nurse advice line for help when they can't reach their PCP or are unsure about their symptoms.

Why do I need care?	I need preventive care.	I need X-rays. I need lab work.	I need immediate care, but it's not life-threatening.*	I'm having surgery.
\$	 PCP or Convenience Care (Retail Clinic)		 PCP or Convenience Care (Retail Clinic)

\$\$\$		 Non-Hospital Facility (Freestanding)		 Non-Hospital Surgery Center (Freestanding)
\$\$\$\$		 Outpatient Hospital	 Emergency Room*	 Outpatient Hospital
\$\$\$\$\$				 Inpatient Hospital

\*If you have a life-threatening injury, illness or emergency, you should always go straight to the emergency room, or dial 911.

**PLEASE READ:** The information provided in this document regarding various care options is meant to be helpful when you are seeking care and is not intended as medical advice. Only a medical provider can offer medical advice. The choice of provider or place to seek medical treatment belongs entirely to you.

## More ways to save

### Reduce your prescription costs

If prescription drugs are a significant part of the costs you pay, here are some ways you may be able to reduce what you spend on them.

#### Buy generic

Generic drugs cost up to 80 percent less than their brand-name counterparts and are made with the same active ingredients. Ask your doctor if your prescription medication can be filled with a generic alternative.

#### Use mail order for maintenance medications

By using our Mail Service Pharmacy program, you can save the most money on your maintenance medications—those drugs taken daily to treat a chronic condition like high cholesterol—by having them delivered right to your home. You can get up to a 90-day supply of your medications for the cost of two copays.

#### Use drugs on the Preferred Drug List

The drugs on CareFirst's Preferred Drug list have been reviewed for quality, effectiveness, safety and cost by an independent national committee of health care professionals. The CareFirst Preferred Drug List identifies generic and preferred brand drugs that may save you money. You can check and print the most up-to-date list at [www.carefirst.com/rx](http://www.carefirst.com/rx).

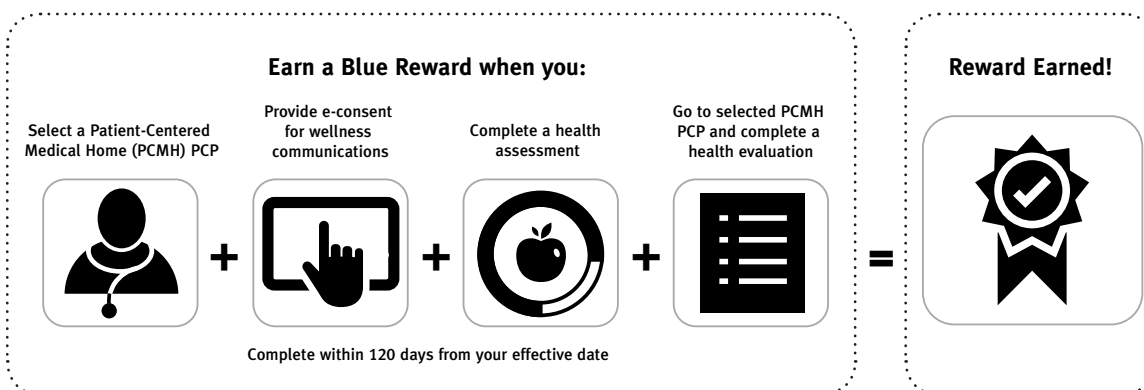

*We've included more information on prescription benefits by health plan in the fold-out chart included with this book.*

## Earn \$150–\$400 from our Blue Rewards program

The CareFirst Blue Rewards Visa® Incentive Card is issued by The Bancorp Bank pursuant to a license from Visa U.S.A. Inc. This card may not be used everywhere Visa debit cards are accepted. No cash access permitted. The Bancorp Bank; Member FDIC. If you are enrolled in a health plan that is compatible with a Health Savings Account (HSA), you are required to meet the Internal Revenue Service (IRS) minimum deductible for an HSA plan of \$1,300 individual/\$2,600 family before receiving the incentive card.

## SEE IF YOU QUALIFY FOR FINANCIAL ASSISTANCE

The federal government provides financial assistance to lower monthly premiums and limit out-of-pocket expenses for people who qualify. You can check our subsidy estimator at [www.carefirst.com/individual](http://www.carefirst.com/individual) to see if you qualify for a lower premium. For more information about financial assistance, please see page 17 in this book.

## Use our Treatment Cost Estimator

Once you are a member, you can manage your health care budget with CareFirst's Treatment Cost Estimator. The estimator is an online resource that helps you determine your approximate out-of-pocket cost for procedures, doctor office visits, lab tests and surgery before you receive care. With the Treatment Cost Estimator, you can:

- Quickly calculate the approximate total costs for procedures, office visits, lab tests and surgery.
- Personalized estimates are based on your health plan and factor in remaining deductible, benefit maximums and copayments.
- Avoid surprises and save money by comparing what your plan pays and your potential bill when you use different doctors and outpatient or inpatient services.
- Plan ahead to keep health costs under control and make informed care decisions.

**Enrolling in Your Plan**

# Four ways to enroll in your new CareFirst plan

Once you decide on the CareFirst plan that works best for your needs, all that's left to do is enroll. If you don't think you're eligible for a subsidy, here are four different ways you can enroll in your new plan right now.

1

Enroll online at [www.carefirst.com/individual](http://www.carefirst.com/individual)

- Get instant confirmation
- Have access to real-time help via:
  - ☐ Click-to-Call
  - ☐ Click-to-Chat
  - ☐ Chloe, our digital rep!

2

Fill out and mail the enclosed paper application using the pre-paid envelope. We'll mail you a confirmation and a bill.

3

Visit one of our regional offices (listed on page 18) to enroll in person and get your questions answered face-to-face.

4

Enroll through your broker, if you have one. A broker is an independent agent who represents you (the buyer) and works to find you the best health insurance policy for your needs.

Open Enrollment is  
November 1, 2015–  
January 31, 2016.

## Wondering if you qualify for financial assistance?

There are two types of financial assistance (also called subsidies) available from the federal government:

- **A tax credit to help pay your monthly premiums**—This subsidy helps reduce your monthly premium. Once you apply, your tax credit will be sent to CareFirst and applied to your bill reducing or even eliminating your premium (excludes the BlueChoice Young Adult plan).
- **A subsidy to lower your out-of-pocket expenses**—This subsidy helps to limit how much you spend on out-of-pocket expenses like copays, coinsurance and deductibles. By lowering these out-of-pocket costs, your health plan begins paying 100 percent of your costs sooner than it would have without the subsidy. If you qualify, and want to take advantage of this type of financial assistance, you must purchase a Silver metal level plan.

To see if you qualify for one or both, check out our subsidy estimator at [www.carefirst.com/individual](http://www.carefirst.com/individual). If you do qualify, you must purchase your plan through the Maryland Health Connection at [www.marylandhealthconnection.gov](http://www.marylandhealthconnection.gov).

Note: If you are an existing member and you qualified for financial assistance in 2015 and did not elect automatic reassessment, you need to contact the Maryland Health Connection and be re-evaluated for financial assistance for 2016 during Open Enrollment, November 1, 2015–January 31, 2016.

## When your coverage will start

When you enroll through CareFirst, your **EFFECTIVE DATE** is the date your coverage begins. If you choose a new plan for 2016 and want coverage to start on January 1, 2016, you must enroll by December 15, 2015.

If you are enrolling through Maryland Health Connection, please be sure to contact them to confirm your effective date.

## Paying for your plan

If you buy CareFirst coverage directly from us online, you can make an immediate payment using your checking account or credit/debit card.

If you buy CareFirst coverage through the Maryland Health Connection, or if you apply with the paper application included in this book, you will be mailed a bill after enrollment. Please wait for your bill before making a payment.

Learn more by visiting [www.carefirst.com/paymentoptions](http://www.carefirst.com/paymentoptions).

## Convenient e-Billing

If you set up automated monthly premium payments, your first payment, and each remaining payment, will be withdrawn from your bank account and sent to CareFirst automatically. You can set up recurring payments at [www.carefirst.com/myaccount](http://www.carefirst.com/myaccount) after you become a member.

**IMPORTANT:** ACA requires that everyone have health coverage that meets ACA requirements at all times. Going without coverage for more than three months could mean you have to pay a tax penalty when you file your taxes with the IRS. Keep in mind—if you miss Open Enrollment, you can only buy health insurance for the rest of 2016 if you meet the qualifying life event criteria (marriage, new baby, layoff, etc.).

# Glossary

Here's a quick reference to many of the terms used in this book. For more glossary terms, visit our YouTube channel videos at [www.youtube.com/carefirst](http://www.youtube.com/carefirst).

---

**Allowed benefit**—the fee that providers in the CareFirst and CareFirst BlueChoice networks have agreed to accept for a particular service. For example: Dr. Smith charges \$100 to see a patient. To be included in a CareFirst or a CareFirst BlueChoice network, he has agreed to accept \$50 for the visit. After the member pays their copay or deductible, CareFirst will pay what's left of the \$50 charge. A participating provider cannot charge a member more than the allowed benefit (in this example \$50) for any covered service.

**Coinsurance**—the percentage you pay after you've met your deductible. For example, if your health care plan has a 20% coinsurance and the allowed benefit is \$100 (the amount a provider can charge a CareFirst member for that service), then your cost would be \$20. CareFirst would pay the remaining \$80.

**Convenience care centers/retail health clinics**—tend to be located inside a pharmacy or retail store and offer fast access to treatment for non-emergency care. These centers/clinics offer extended weekend hours and can often see you quickly.

**Copay**—a fixed dollar amount you pay when you visit a doctor or other provider. For example, you might pay \$40 each time you visit a specialist or \$300 when you visit the emergency room.

**Deductible**—the amount of money you must pay each year before CareFirst begins to pay its portion of your claims. For example, if your deductible is \$1,000, you'll pay the first \$1,000 for health care services covered by your plan and subject to the deductible. CareFirst will start paying for part or all of the services after that. Your deductible will start over each year on January 1. Please note—many of our plans include a variety

of services that do not require you to meet the deductible before CareFirst begins paying.

**Effective date**—the date your coverage begins. Individuals applying through CareFirst's site must submit their application by the 15th of the month in order to receive an effective date of the first of the following month.

**Generic drugs**—prescription drugs that work the same as brand-name drugs but cost much less. Some plans also divide generics into preferred generics and non-preferred generics based on cost. To learn more about generics and how you can save money, visit [www.carefirst.com/rx](http://www.carefirst.com/rx).

**Health Savings Account (HSA)**—a special, tax-advantaged account that you set up to save money for current and future health care expenses. The deposits you make to your HSA reduce your taxable income, helping you keep more of your hard-earned money. You can use the money you deposit into your HSA to pay the deductible and other out-of-pocket expenses for you, your spouse and your dependents (even if they're not enrolled in your health care plan) or you can save it for future health care expenses. If you have coverage for your spouse or family, the maximum amount that you can contribute to your HSA is even higher and can reduce your taxable income by whatever amount you contribute.

**Metal levels**—your plan's metal level refers to the rating criteria determined by the federal government. Bronze, Silver, Gold and Platinum are labels that categorize different health plans and represent the portion of services that will be paid for by the plan. Generally, a Bronze plan will cover 60 percent of the cost of all covered services; a Silver plan 70 percent; a Gold plan 80 percent; and a Platinum plan 90 percent. Please note: CareFirst does not offer Platinum plans in Maryland.

One other option that's not included in any metal level is BlueChoice Young Adult. This plan is for individuals under age 30.

**Non-preferred brand drugs**—drugs that are often available in less expensive forms, either as generic or preferred brand drugs. You will pay more for this category of drugs.

**Open Enrollment**—the only time of year in which individuals are able to enroll or switch health plans without qualifying for a special enrollment period. Individuals applying through CareFirst's website must submit their application by the 15th of the month in order to receive an effective date of the first of the following month.

**Out-of-pocket maximum**—the most you will have to pay for medical expenses and prescriptions in a calendar year. Your out-of-pocket maximum will start over every January 1. Please note: your monthly premium payments do not count toward your out-of-pocket maximum.

**Preferred brand drugs**—drugs not yet available in generic form chosen for their effectiveness and affordability compared to alternatives. They cost more than generics but less than non-preferred brand drugs.

**Premium**—the amount you pay each month for your plan, or policy, based on where you live, number and age of covered family members and the plan you choose.

**Primary care provider (PCP)**—your health care partner. They know and understand you and your health care needs.

**Specialty drugs**—the highest priced drugs that may require special handling, administration or monitoring. These drugs may be oral or injectable and are used to treat a serious or chronic condition.

#### A. Methods of paying physicians

The following definitions explain how insurance carriers may pay physicians (or other providers) for your health care services.

The examples show how Dr. Jones, an obstetrician/gynecologist, would be compensated under each method of payment.

**Salary:** A physician (or other provider) is an employee of the HMO and is paid compensation (monetary wages) for providing specific health care services.

Since Dr. Jones is an employee of an HMO, she receives her usual bi-weekly salary regardless of how many patients she sees or the number of services she provides. During the months of providing prenatal care to Mrs. Smith, who is a member of the HMO, Dr. Jones' salary is unchanged. Although Mrs. Smith's baby is delivered by Cesarean section, a more complicated procedure than a vaginal delivery, the method of delivery will not have an effect upon Dr. Jones' salary.

**Capitation:** A physician (or group of physicians) is paid a fixed amount of money per month by an HMO for each patient who chooses the physician(s) to be his or her doctor. Payment is fixed without regard to the volume of services that an individual patient requires.

Under this type of contractual arrangement, Dr. Jones participates in an HMO network. She is not employed by the HMO. Her contract with the HMO stipulates that she is paid a certain amount each month for patients who select her as their doctor. Since Mrs. Smith is a member of the HMO, Dr. Jones monthly payment does not change as a result of her providing ongoing care to Mrs. Smith. The capitation amount paid to Dr. Jones is the same whether or not Mrs. Smith requires obstetric services.

**Fee-for-service:** A physician (or other provider) charges a fee for each patient visit, medical procedure, or medical service provided. An HMO pays the entire fee for physicians it has under contract and an insurer pays all or part of that fee, depending on the type of coverage. The patient is expected to pay the remainder.

Dr. Jones' contract with the insurer or HMO states that Dr. Jones will be paid a fee for each patient visit and each service she provides. The amount of payment Dr. Jones receives will depend upon the number, types, and complexity of services, and the time she spends providing services to Mrs. Smith. Because Cesarean deliveries are more complicated than vaginal deliveries, Dr. Jones is paid more to deliver Mrs. Smith's baby than she would be paid for a vaginal delivery. Mrs. Smith may be responsible for paying some portion of Dr. Jones' bill.

**Discounted fee-for-service:** Payment is less than the rate usually received by the physician (or other provider) for each patient visit, medical procedure, or service. This arrangement is the result of an agreement between the payer, who gets lower costs and the physician (or other provider), who usually gets an increased volume of patients.

Like fee-for-service, this type of contractual arrangement involves the insurer or HMO paying Dr. Jones for each patient visit and each delivery; but under this arrangement, the rate, agreed upon in advance, is less than Dr. Jones' usual fee. Dr. Jones expects that in exchange for agreeing to accept a reduced rate, she will serve a certain number of patients. For each procedure that she performs, Dr. Jones will be paid a discounted rate by the insurer or HMO.

**Bonus:** A physician (or other provider) is paid an additional amount over what he or she is paid under salary, capitation, fee-for-service, or other type of payment arrangement. Bonuses may be based on many factors, including member satisfaction, quality of care, control of costs and use of services.

An HMO rewards its physician staff or contracted physicians who have demonstrated higher than average quality and productivity. Because Dr. Jones has delivered so many babies and she has been rated highly by her patients and fellow physicians, Dr. Jones will receive a monetary award in addition to her usual payment.

**Case rate:** The HMO or insurer and the physician (or other provider) agree in advance that payment will cover a combination of services provided by both the physician (or other provider) and the hospital for an episode of care.

This type of arrangement stipulates how much an insurer or HMO will pay for a patient's obstetric services. All office visits for prenatal and postnatal care, as well as the delivery, and hospital-related charges are covered by one fee. Dr. Jones, the hospital, and other providers (such as an anesthesiologist) will divide payment from the insurer or HMO for the care provided to Mrs. Smith.

## **B. Percentage of provider payment methods**

CareFirst BlueChoice, Inc. is a network model HMO and contracts directly with the primary care and specialty care providers. According to this type of arrangement, CareFirst BlueChoice, Inc. reimburses providers primarily on a discounted fee-for-service payment method. The provider payment method percentages for CareFirst BlueChoice, Inc. are approximately 99% discounted fee-for-service with less than 1% capitated.

For its Indemnity and Preferred Provider Organization (PPO) plans, CareFirst of Maryland, Inc. and CareFirst BlueCross BlueShield contract directly with physicians. All physicians are Reimbursed on a discounted fee-for-service basis.

### C. Distribution of premium dollars

Experimental/Investigational services do not include Controlled Clinical Trials.
