 **Retail health clinics:** Low copays and after-hours care for minor health concerns.

 **Caution—Emergency room:** Highest out-of-pocket costs; explore other options for non-emergency care.

 **Labs/X-rays/Imaging:** Use non-hospital facilities for the lowest copays.

 **Caution:** These services will cost more if performed in a hospital.

 **Surgeries:** Non-hospital (ambulatory) surgery centers will save you money on many outpatient surgeries.

 **Generic drugs:** Always your lowest cost option; some are no charge and no deductible.

 **Caution:** For the lowest cost, always visit doctors who are in-network.

¹ Health Maintenance Organization (HMO) plans underwritten by CareFirst BlueChoice, Inc.

² Preferred Provider Organization (PPO) plans underwritten by Group Hospitalization and Medical Services, Inc. or CareFirst of Maryland, Inc.

³ Point of Service (POS) plans underwritten by CareFirst BlueChoice, Inc. for in-network benefits and by Group Hospitalization and Medical Services, Inc. or CareFirst of Maryland, Inc. for out-of-network benefits.

⁴ For family coverage only – For BlueChoice HMO HSA Silver \$1,500 and BluePreferred PPO HSA Silver \$2,000: The family deductible must be met before full benefits will be available to any member on the policy. Once the family deductible has been met, full benefits will become available to everyone covered. All other plans: If one member on the policy meets the individual deductible, full benefits will begin for that member. That member will not be able to contribute more than the individual deductible amount towards the family deductible. Once the family deductible has been met, full benefits will be available to all members on the policy.

⁵ For family coverage only – When one family member meets the individual out-of-pocket maximum, their services will be covered at 100% up to the allowed benefit. Each family member cannot contribute more than the individual out-of-pocket maximum amount. The family out-of-pocket maximum must be met before the services for all remaining family members will be covered at 100% up to the allowed benefit.

⁶ You receive up to 3 non-preventive primary care visits without needing to meet a deductible.

⁷ For HMO and POS plans: For in-network benefits, members must use LabCorp for laboratory services and freestanding facilities for diagnostic services and X-rays. Other providers/facilities may be used in POS plans but will be considered out-of-network.

⁸ Prior authorization required.

⁹ For non-routine obstetrical care or complications of pregnancy, cost-sharing may apply.

¹⁰ For HMO and POS plans: To receive in-network coverage, mental health and substance abuse coverage must be performed by Magellan behavioral health providers. Other providers may be used for out-of-network coverage for POS plans.

¹¹ All out-of-pocket drug costs contribute to the in-network out-of-pocket maximum.

¹² If a generic drug becomes available for a preferred brand drug, the preferred brand drug moves to the non-preferred brand drug tier.

¹³ If a provider prescribes a non-preferred brand drug and the member selects the non-preferred brand drug when a generic drug is available, the member shall pay the applicable copayment as stated above plus the difference between the price of the non-preferred brand drug and the generic drug up to the cost of the drug. This amount will not contribute to the in-network out-of-pocket maximum.

Choosing Your Plan

Learn how health insurance works

To help you choose the best health plan for your budget and your needs, it's important to understand a bit about health insurance. The graphic below explains how health insurance works and defines some key terms.

CareFirst offers plans for every budget

CareFirst offers three different types of plans: Health Maintenance Organization (HMO), Point of Service (POS) and Preferred Provider Organization (PPO). The main differences between plan types are how much freedom you have when choosing providers. To learn more about HMO, POS and PPO plans, refer to our glossary on page 37.

	HMO Plans	POS Plans	PPO Plans
Advantages	Nearly 37,000 doctors, specialists and hospitals to choose from	Flexible coverage; combines benefits of an HMO with access to out-of-network providers	- Most flexible - Large choice of approximately 42,000 providers - Coverage for out-of-area services (outside of MD, DC and Northern VA) is included*
Things to consider	- Out-of-area coverage (outside of MD, DC and Northern VA) for emergencies and urgent care only - Coverage is available for those living in selected states for an extended period of time (i.e., college) through our Away From Home program	- Using out-of-network providers will cost you more - Out-of-area coverage (outside of MD, DC and Northern VA) is available but will be covered out-of-network*	Using out-of-network providers will cost you more
Available plans	- BlueChoice HMO Young Adult \$7,150 - BlueChoice HMO HSA Bronze \$6,550 - BlueChoice HMO Silver \$3,500 - BlueChoice HMO HSA Silver \$1,500 - HealthyBlue HMO Gold \$1,000	BlueChoice Plus Silver \$2,500	- BluePreferred PPO HSA Bronze \$6,550 - BluePreferred PPO HSA Silver \$2,000 - HealthyBlue PPO Gold \$1,000

DID YOU KNOW?...

CareFirst has the region's largest group or "network" of providers—doctors, hospitals and pharmacies— from which you can receive benefits and services. To search for your doctor within our network, visit www.carefirst.com/doctor.

*There is no benefit for non-emergency services provided outside of the United States.

To choose the best plan for your needs, you should:

Understand metal levels

Under the Affordable Care Act (ACA) there are four categories of health coverage—Bronze, Silver, Gold and Platinum—called **METAL LEVELS**. All health plans fall into a metal level depending on the share of health care expenses they cover. For example, bronze plans have higher deductibles than other metal level plans.

In Maryland, CareFirst offers plans in the following metal levels:

- Gold
- Silver
- Bronze

CareFirst also offers a Catastrophic plan (BlueChoice Young Adult) for individuals under age 30, or individuals with a hardship exemption.

Consider a Health Savings Account

A **HEALTH SAVINGS ACCOUNT (HSA)** is a tax-exempt medical savings account that can be used to pay for your own, and your dependents', eligible medical expenses. HSAs enable you to pay for eligible health expenses and save for future qualified health expenses on a tax-free basis. We offer four health insurance plans that coordinate with an HSA.

Look into financial assistance

You may qualify for financial assistance (also called subsidies) from the government. There are two types of financial assistance available:

A tax credit to help pay your monthly premium—This subsidy helps reduce your monthly premium. Once you qualify, your tax credit will be sent to CareFirst and applied to your bill, reducing your premium. If you qualify for this type of assistance, you can use it toward the purchase of any plan—Bronze, Silver or Gold (excludes the BlueChoice Young Adult plan).

A subsidy to lower your out-of-pocket expenses—This subsidy helps limit how much you spend on out-of-pocket expenses like copays, coinsurance and deductibles. By lowering these out-of-pocket costs, your health plan begins paying 100 percent of your costs sooner than it would have without the subsidy. If you qualify, and want to take advantage of this type of financial assistance, you must purchase a Silver metal level plan.

To see whether you qualify for assistance, check out our subsidy estimator at www.carefirst.com/individual. If you do qualify, you must purchase your plan through the Maryland Health Connection at www.marylandhealthconnection.gov.

Note: If you are an existing member and you qualified for financial assistance in 2016 and did not elect automatic reassessment, you need to contact the Maryland Health Connection and be re-evaluated for financial assistance for 2017 during Open Enrollment from November 1, 2016–January 31, 2017.

DID YOU KNOW?...

...individuals earning up to \$47,520* and a family of four earning up to \$97,200* can still qualify for financial assistance to help pay for their health insurance premiums?

*income based on 2016 federal poverty levels

Learn more about what you get with every CareFirst plan

Included with every CareFirst plan

CareFirst health plans are designed with your health in mind. All plans in this book include essential benefits like preventive care, hospitalization, emergency services, lab tests, maternity and mental health care. And, there is even more to every CareFirst plan. We also include:

- Prescription drug coverage
- Blue Rewards
- Vision examination for members over age 19
- Dental and vision coverage for members under age 19

Prescription drug coverage

Prescription drugs are an essential part of health care. As a CareFirst member, your prescription coverage includes:

- A nationwide network of more than 69,000 participating pharmacies
- Approximately 5,000 covered prescription drugs, including:
 - **GENERIC DRUGS**
Generic drugs cost up to 75 percent less than their brand-name counterparts and are made with the same active ingredients. Ask your doctor if your prescription medication can be filled with a generic alternative.
 - **PREFERRED BRAND-NAME DRUGS**
The drugs on CareFirst's Preferred Drug list have been reviewed for quality, effectiveness, safety and cost by an independent national committee of health care professionals. The CareFirst Preferred Drug List identifies generic and preferred brand-name drugs that may save you money. You can check and print the most up-to-date list at www.carefirst.com/acarx.
 - **NON-PREFERRED BRAND-NAME DRUGS** are often available in less-expensive forms, either as generics or preferred brand drugs. You will pay more for drugs in this tier.
 - **SPECIALTY DRUGS** often have the highest out-of-pocket cost. In most cases, these are high-cost prescription drugs that may require special handling, administration or monitoring and may be oral or injectable medications used to treat serious or chronic medical conditions.
- Mail Service Pharmacy, our convenient and fast mail order drug program
 - By using our Mail Service Pharmacy program, you can save the most money on your maintenance medications—those drugs taken daily to treat a chronic condition like high cholesterol—by having them delivered right to your home. You can get up to a 90-day supply of your medications for the cost of two copays. Non-maintenance drugs are also available through the Mail Service Pharmacy.
- Coordinated medical and pharmacy programs to help improve your overall health and reduce costs

We've included more information on prescription benefits by health plan in the fold-out chart included with this book.

Visit www.carefirst.com/acarx to find out more.

Earn money with our Blue Rewards program

Blue Rewards is CareFirst's exclusive incentive program that rewards you for taking steps to get and stay healthy. By completing four required steps, you and your covered spouse/domestic partner can each earn up to \$150.

Once you've earned your reward, you will receive a CareFirst Blue Rewards Visa® Incentive Card that can be applied to your out-of-pocket costs like copays and eligible medical, prescription drug, dental and vision expenses under your CareFirst health plan.

There are four steps you must complete to earn your reward.

For more information on the steps and the program, visit www.carefirst.com/bluerewards.

The CareFirst Blue Rewards Visa® Incentive Card is issued by The Bancorp Bank pursuant to a license from Visa U.S.A. Inc. This card may not be used everywhere Visa debit cards are accepted. No cash access permitted. The Bancorp Bank; Member FDIC.

If you have a plan with a health savings account (HSA) option, you will typically receive the incentive card once you have met the Internal Revenue Service (IRS) minimum deductible for an HSA plan—\$1,300 for an individual or \$2,600 for a family. You may be able to receive your incentive card after completing the four steps if certain requirements are met.

Using Your Plan

Know before you go

Knowing where to go when you need medical care is key to getting treatment with the lowest out-of-pocket costs.

Primary care provider (PCP)

Establishing a relationship with a primary care provider is the best way to receive consistent, quality care. Except for emergencies, your PCP should be your first call when you require medical attention. Your PCP may be able to provide advice over the phone or fit you in for a visit right away.

FirstHelp—free 24-hour nurse advice line

With our free nurse advice line, members can call anytime to speak with a registered nurse. Nurses can provide you with medical advice and recommend the most appropriate care.

CareFirst Video Visit

See a doctor 24/7 without an appointment! You can consult with a board-certified doctor on your smartphone, tablet or computer. Doctors can treat a number of common health issues like flu and pink eye. Visit www.carefirst.com/needcare for more information.

Convenience care centers (retail health clinics)

These are typically located inside a pharmacy or retail store and offer accessible care with extended hours. Visit a convenience care center for help with minor concerns like cold symptoms and ear infections.

Urgent care centers

Urgent care centers have a doctor on staff and are another option when you need care on weekends or after hours.

Emergency room (ER)

An emergency room provides treatment for acute illnesses and trauma. You should call 911 or go straight to the ER if you have a life-threatening injury, illness or emergency. Prior authorization is not needed for emergency room services.

When you need care

When your PCP isn't available, being familiar with your options will help you locate the most appropriate and cost-effective medical care. The chart below shows how costs* may vary for a sample health plan depending on where you choose to get care.

	Sample cost	Sample symptoms	Available 24/7	Prescriptions
Video Visit	\$20	■ Cough, cold and flu ■ Pink eye ■ Ear infection	✓	✓
Convenience Care	\$20	■ Cough, cold and flu ■ Pink eye ■ Ear infection	✗	✓
Urgent Care	\$60	■ Sprains ■ Cut requiring stitches ■ Minor burns	✗	✓
Emergency Room	\$200	■ Chest pain ■ Difficulty breathing ■ Abdominal pain	✓	✓

* The costs in this chart are for illustrative purposes only and may not represent your specific benefits or costs.

The medical providers mentioned in this document are independent providers making their own medical determinations and are not employed by CareFirst. CareFirst does not direct the action of participating providers or provide medical advice.

Enrolling in Your Plan

Calculating your total monthly premium

Before you decide on the plan that best fits your needs, you'll likely want to take a look at the cost.

Buying an individual plan

Using the chart on the following pages, find the plan(s) you are considering and circle the dollar amount that corresponds with how old you will be—shown in the far left column—when your coverage begins (i.e. your age on January 1, 2017). That's your rate!

Buying a family plan

If you are interested in a family plan, each family member is rated individually and your rates are combined to calculate your family premium. To calculate your family premium:

- Circle the rate for you.
- Circle the rate for your spouse (if applicable).
- Circle the rates for your oldest three children under age 21. If you have more than three children under age 21, all will be covered on your plan but only the three oldest count toward your overall premium.
- Circle the rate for each child age 21-25. Note: children over age 25 must purchase their own health insurance.
- Add all individual rates together to determine your family premium.

Example family premium calculation

Bob and Kristin are married with 3 kids—Olivia, 15, Sydney, 17 and Ethan, 23. They want to calculate their family's monthly premium for the BlueChoice HMO Silver \$3,500 plan.

Using the rate chart, they find their plan's column and circle:

- Olivia and Sydney's rate in their age row (0-20)— because both daughters fall in the same age row, they make a note to add that rate twice, once for each daughter
- Ethan's rate in his age row (23)
- Kristin's rate in her age row (48)
- Bob's rate in his age row (53)

They add everything up at the bottom of the page - that's the final rate for BlueChoice HMO Silver \$3,500 plan.

Remember—rates are subject to change annually.

Additional Information

Glossary

Here's a quick reference guide to many of the terms used in this book. For more glossary terms, visit our YouTube channel videos at www.youtube.com/carefirst.

Allowed benefit—The maximum dollar amount an insurer will pay for a covered health service, regardless of the provider's actual charge. A provider who participates in the CareFirst BlueCross BlueShield or BlueChoice network cannot charge members more than the allowed benefit amount for any covered service.

Catastrophic plan—Catastrophic plans, like our BlueChoice Young Adult plan, usually have lower premiums than a comprehensive plan, but have higher deductibles. The BlueChoice Young Adult plan is available to individuals under the age of 30 at the time of their effective date. Please note, certain individuals age 30 or older may also apply for BlueChoice Young Adult if their policies were cancelled due to non-compliance with the Affordable Care Act or if they qualify for a hardship exemption.

Coinsurance—the percentage you pay after you've met your deductible. For example, if your health care plan has a 30% coinsurance and the allowed benefit is \$100 (the amount a provider can charge a CareFirst member for that service), then your cost would be \$30. CareFirst would pay the remaining \$70.

Convenience care centers/retail health clinics—tend to be located inside a pharmacy or retail store and offer fast access to treatment for non-emergency care. These centers/clinics offer extended weekend hours and can often see you quickly.

Copay—a fixed dollar amount you pay when you visit a doctor or other provider. For example, you might pay \$40 each time you visit a specialist or \$300 when you visit the emergency room.

Deductible—the amount of money you must pay each year before CareFirst begins to pay its portion of your claims. For example, if your deductible is \$1,000, you'll pay the first \$1,000 for health care services covered by your plan and subject to the deductible. CareFirst will start paying for part or all of the services after that. Your deductible will start over each year on January 1. Please note—many of our plans include a variety of services that do not require you to meet the deductible before CareFirst begins paying.

Effective date—the date your coverage begins. Individuals applying through CareFirst's site must submit their application by the 15th of the month in order to receive an effective date of the first of the following month.

Generic drugs—prescription drugs that work the same as brand-name drugs but cost much less. To learn more about generics and how you can save money, visit www.carefirst.com/acarx.

Health Maintenance Organization (HMO)—BlueChoice HMO plans offer the flexibility to see any of the nearly 37,000 participating providers in the BlueChoice network. Outside of our network, only emergency medical services are covered.

Health Savings Account (HSA)—a special, tax-advantaged account that you set up to save money for current and future health care expenses. The deposits you make to your HSA reduce your taxable income, helping you keep more of your hard-earned money. You can use the money you deposit into your HSA to pay the deductible and other out-of-pocket expenses for you, your spouse and your dependents (even if they're not enrolled in your health care plan) or you can save it for future health care expenses. If you have coverage for your spouse or family, the maximum amount that you can contribute to your HSA is even higher and can reduce your taxable income by whatever amount you contribute.

Metal levels—your plan's metal level refers to the rating criteria determined by the federal government. Bronze, Silver, Gold and Platinum are labels that categorize different health plans and represent the portion of services that will be paid for by the plan. Generally, a Bronze plan will cover 60 percent of the cost of all covered services; a Silver plan 70 percent; a Gold plan 80 percent; and a Platinum plan 90 percent. Please note: CareFirst does not offer Platinum plans in Maryland.

One other option that's not included in any metal level is a Catastrophic plan like BlueChoice Young Adult which is generally for individuals under age 30.

Non-preferred brand drugs—drugs that are often available in less expensive forms, either as generic or preferred brand drugs. You will pay more for this category of drugs.

Open Enrollment—the only time of year in which individuals are able to enroll or switch health plans without qualifying for a special enrollment period. Individuals applying through CareFirst's website must submit their application by the 15th of the month in order to receive an effective date of the first of the following month.

Out-of-pocket maximum—the most you will have to pay for medical expenses and prescriptions in a calendar year. Your out-of-pocket maximum will start over every January 1. Please note: your monthly premium payments do not count toward your out-of-pocket maximum.

Point of Service (POS)—POS plans offer access to care in the HMO network for the lowest costs and in the PPO network, which will be slightly more expensive. Nationwide care (outside of Maryland, Virginia and D.C.) is also available, but will cost you more.

Preferred brand drugs—drugs not yet available in generic form chosen for their effectiveness and affordability compared to alternatives. They cost more than generics but less than non-preferred brand drugs.

Preferred Provider Organization (PPO)—BluePreferred PPO plans offer the most flexibility. Care can be accessed from the PPO network of approximately 42,000 providers locally and thousands nationally. Costs will be higher if you see a doctor who does not participate with a Blue Cross and Blue Shield plan.

Premium—the amount you pay each month for your plan, based on the number and age of covered family members and the plan you choose.

Primary care provider (PCP)— the doctor you select as your health care partner. They know and understand you and your health care needs.

Specialty drugs—the highest priced drugs that may require special handling, administration or monitoring. These drugs may be oral or injectable and are used to treat serious or chronic conditions.

A. Methods of paying physicians

The following definitions explain how insurance carriers may pay physicians (or other providers) for your health care services.

The examples show how Dr. Jones, an obstetrician/gynecologist, would be compensated under each method of payment.

Salary: A physician (or other provider) is an employee of the HMO and is paid compensation (monetary wages) for providing specific health care services.

Since Dr. Jones is an employee of an HMO, she receives her usual bi-weekly salary regardless of how many patients she sees or the number of services she provides. During the months of providing prenatal care to Mrs. Smith, who is a member of the HMO, Dr. Jones' salary is unchanged. Although Mrs. Smith's baby is delivered by Cesarean section, a more complicated procedure than a vaginal delivery, the method of delivery will not have an effect upon Dr. Jones' salary.

Capitation: A physician (or group of physicians) is paid a fixed amount of money per month by an HMO for each patient who chooses the physician(s) to be his or her doctor. Payment is fixed without regard to the volume of services that an individual patient requires.

Under this type of contractual arrangement, Dr. Jones participates in an HMO network. She is not employed by the HMO. Her contract with the HMO stipulates that she is paid a certain amount each month for patients who select her as their doctor. Since Mrs. Smith is a member of the HMO, Dr. Jones monthly payment does not change as a result of her providing ongoing care to Mrs. Smith. The capitation amount paid to Dr. Jones is the same whether or not Mrs. Smith requires obstetric services.

Fee-for-service: A physician (or other provider) charges a fee for each patient visit, medical procedure, or medical service provided. An HMO pays the entire fee for physicians it has under contract and an insurer pays all or part of that fee, depending on the type of coverage. The patient is expected to pay the remainder.

Dr. Jones' contract with the insurer or HMO states that Dr. Jones will be paid a fee for each patient visit and each service she provides. The amount of payment Dr. Jones receives will depend upon the number, types, and complexity of services, and the time she spends providing services to Mrs. Smith. Because Cesarean deliveries are more complicated than vaginal deliveries, Dr. Jones is paid more to deliver Mrs. Smith's baby than she would be paid for a vaginal delivery. Mrs. Smith may be responsible for paying some portion of Dr. Jones' bill.

Discounted fee-for-service: Payment is less than the rate usually received by the physician (or other provider) for each patient visit, medical procedure, or service. This arrangement is the result of an agreement between the payer, who gets lower costs and the physician (or other provider), who usually gets an increased volume of patients.

Like fee-for-service, this type of contractual arrangement involves the insurer or HMO paying Dr. Jones for each patient visit and each delivery; but under this arrangement, the rate, agreed upon in advance, is less than Dr. Jones' usual fee. Dr. Jones expects that in exchange for agreeing to accept a reduced rate, she will serve a certain number of patients. For each procedure that she performs, Dr. Jones will be paid a discounted rate by the insurer or HMO.

Bonus: A physician (or other provider) is paid an additional amount over what he or she is paid under salary, capitation, fee-for-service, or other type of payment arrangement. Bonuses may be based on many factors, including member satisfaction, quality of care, control of costs and use of services.

An HMO rewards its physician staff or contracted physicians who have demonstrated higher than average quality and productivity. Because Dr. Jones has delivered so many babies and she has been rated highly by her patients and fellow physicians, Dr. Jones will receive a monetary award in addition to her usual payment.

Case rate: The HMO or insurer and the physician (or other provider) agree in advance that payment will cover a combination of services provided by both the physician (or other provider) and the hospital for an episode of care.

This type of arrangement stipulates how much an insurer or HMO will pay for a patient's obstetric services. All office visits for prenatal and postnatal care, as well as the delivery, and hospital-related charges are covered by one fee. Dr. Jones, the hospital, and other providers (such as an anesthesiologist) will divide payment from the insurer or HMO for the care provided to Mrs. Smith.

B. Percentage of provider payment methods

CareFirst BlueChoice, Inc. is a network model HMO and contracts directly with the primary care and specialty care providers. According to this type of arrangement, CareFirst BlueChoice, Inc. reimburses providers primarily on a discounted fee-for-service payment method. The provider payment method percentages for CareFirst BlueChoice, Inc. are approximately 99% discounted fee-for-service with less than 1% capitated.

For its Indemnity and Preferred Provider Organization (PPO) plans, CareFirst of Maryland, Inc. and CareFirst BlueCross BlueShield contract directly with physicians. All physicians are reimbursed on a discounted fee-for-service basis.

C. Distribution of premium dollars

Chart C represents an average for all Group Hospitalization and Medical Services, Inc. indemnity accounts based on our annual statement. The ratio of direct medical care expenses to plan administration will vary by account.

The composite distribution presented in this disclosure is presented pursuant to the requirements of Maryland law, and may differ from calculations of federal medical loss ratio for a carrier in a particular market under the requirements of the Patient Protection and Affordable Care Act, based on accounting differences in the formulae used.
