## HOW THE PLAN WORKS

**This Section explains how your Health Benefit Plan works, how to access your Primary Care Practitioner to get Health Care Services, requirements you must follow when getting care and how to receive Covered Benefits under this Agreement.**

This plan is an “HMO” (Health Maintenance Organization). People who receive Health Care Benefits through an HMO are sometimes called “Enrollees” or “Subscribers. We strive to work closely with Subscribers, their Covered Dependents, and their health care Practitioners/Providers to prevent illness and provide quality, cost-effective health care. Because of this close working relationship, we consider our Enrollees and Subscribers to be Members of our health plan.

We require that:

- You must physically live in the State of New Mexico (our Service Area) unless you are a Dependent and meet all of the terms and conditions for such Coverage as outlined in the **Eligibility, Enrollment and Effective Dates, Termination and Continuation of Coverage** Section.
- You must be under the age of 65.
- You and/or your Dependents cannot be eligible for Medicare due to age, illness or disability.

- All of your healthcare services are provided by In-Network Contract Practitioner/Providers, except for Urgent and Emergency Health Care Services situations. Please refer to the Benefits Section **Accidental Injury / Urgent Care / Emergency Health Care Services / Observation / Trauma Services**.
- You select a Primary Care Physician (PCP) from the Provider Directory to coordinate all of your care.

- You pay your pre-determined Cost Sharing (Deductible, Coinsurance and/or Copayment) at the time you receive Covered Services. We will reimburse the Practitioner/Provider the balance for Covered Services based upon Total Allowable Charges (some services may not require a Cost Sharing Deductible, Coinsurance and/or Copayment). Refer to your **Summary of Benefits and Coverage** to find Covered Services subject to Cost Sharing amounts.

To receive care under our plan, you must select an In-network Primary Care Physician to manage your health care needs. Your Primary Care Physician will be able to meet most of these needs. A list of Practitioners/Providers who serve as In-network Primary Care Physicians may be found in the Provider Directory. Primary Care Physicians include, but are not limited to, General Practitioners, Family Practice Physicians, Internists, Pediatricians, and Obstetricians/Gynecologists (if applicable). As a Member of the health plan, you may choose as your Primary Care Physician any doctor or Nurse Practitioner on that list.

## Provider Directory

You will find our Primary Care Physicians close to where you live and work across the State. The Provider Directory is available on our website at [www.phs.org](http://www.phs.org) or by calling our Presbyterian Customer Service Center Monday through Friday from 7:00 a.m. to 6:00 p.m. at **(505) 923-5678 or toll-free at 1-800-356-2219**. Hearing impaired users may call the **TTY line at (505) 923-5699 or toll-free 1-877-298-7407**.

The Provider Directory is subject to change and you should always verify the Practitioner/Provider's network status by visiting our website at [www.phs.org](http://www.phs.org).

## Obtaining Health Care

### How to Obtain Primary Care Services

To receive care under this plan, you and all Covered Members of your family must select an In-network Primary Care Physician (PCP) to manage your health care needs. Primary Care Physicians include, but are not limited to, General Practitioners, Family Practice Physicians, Internists, Pediatricians and Obstetricians/Gynecologists (if applicable).

Establishing a relationship with your Primary Care Physician is an important part of your health care Benefits. Remember to contact or see your PCP before you seek medical treatment. Your PCP's role extends far beyond treating you when you are ill; he or she understands the importance of preventing illness and promoting healthier lifestyles. Your PCP expects to manage all of your health concerns and develop an understanding of your health history.

You may want to ask relatives or friends if they have a PCP they would recommend. A Physician may not be a PCP for him/herself or immediate family members. If you do not designate a PCP on your enrollment form, PHP will select one for you. You may change your PCP by contacting our Presbyterian Customer Service Center. The requested change will be effective the next business day after you call our Presbyterian Customer Service Center.

### Women's Healthcare Provider/Practitioner

Any female Member age 13 or older may select an In-Network Women's Healthcare Practitioner/Provider listed as a PCP in our Provider Directory as her Primary Care Physician. In addition, a female Member age 13 or older who has not selected a Women's Healthcare Practitioner/Provider as her Primary Care Physician may consult with an In-network Women's Healthcare Provider/Practitioner, without a referral from her Primary Care Physician, for any gynecological service.

### Specialist Care

As our Member, you must carefully follow all procedures and conditions for obtaining care from specialists and/or Out-of-network Practitioners/Providers. We no longer require a paper referral from your Primary Care Physician (PCP) for your visits to specialists. However, it is important to your health care that your PCP is included in the decisions about the specialists that you visit. Your

PCP continues to be your partner for good health and is the best person to help you determine your needs for specialty care.

Effective communication about your medical history and treatment between your PCP and the specialists that provide care for you is very important so that the best decisions can be made about your medical care. We recommend that you contact your PCP's office regarding your desire to visit a specialist.

Please note that some specialists may require written referral even though we do not. Certain procedures require Prior Authorization. Your In-network Practitioner/Provider must obtain this Prior Authorization before providing these services to you. Please refer to the **Prior Authorization Section** of this Agreement.

### **Obtaining Care After Normal Physician Office Hours**

Most Physicians offer an after-hours answering service. For non-emergency situations, you should phone your Primary Care Physician. The name and address of your PCP appears on your Identification Card. You will also find the phone number of your PCP in the Provider Directory.

If Emergency Health Care Services are needed, you should call 911, or seek treatment at an emergency room. If in need of Urgent Care, you may seek treatment at an Urgent Care Center that is available and open for business. Please note that some Urgent Care Centers are not open after 8:00 p.m. In such circumstances, it may be necessary to use an emergency room for care that is needed on an urgent basis. Please refer to the **Benefits Section, Accidental Injury / Urgent Care / Emergency Health Services / Observation /Trauma Services Benefits Section** of this Agreement for a detailed description of Coverage for Urgent and Emergency Health Care Services.

### **In-Network Practitioners/Providers**

In-network Practitioners/Providers, including Primary Care Physicians, specialists, facilities and ancillary Health Care Professionals, must be utilized, except in cases of an emergency. Members are responsible for paying the appropriate Cost Sharing (Copayment and/or Coinsurance) directly to the Practitioner/Provider at the time services are rendered when such amounts are clearly specified by the Practitioner/Provider.

Hospital Inpatient Admission and some other Health Care Services require our review and Prior Authorization before the services are provided. If you seek care from an In-network Practitioner/Provider, your In-network Practitioner/Provider will notify us and handle all aspects of your care. If that Practitioner/Provider fails to obtain a required Prior Authorization and the claim is denied, you will not be held accountable for those charges. Please refer to the **Prior Authorization Section** for complete details on Prior Authorization.

Generally you will not have claims to file or papers to fill out in order for a claim to be paid. The Practitioner/Provider will bill us directly for the cost of services. Most services require Cost Sharing (Deductible, Coinsurance and/or Copayments) at the time of service. The amount of Cost Sharing for each service can be found in your **Summary of Benefits and Coverage**. In-network Practitioners and Providers cannot bill you for any additional costs over and above your Cost Sharing amounts.

We do not require our In-network Practitioners/Providers to comply with any specified numbers, targeted averages, or maximum duration of patient visits.

## Out-of-network Practitioners/Providers

Out-of-network Practitioners/Providers are health care Practitioners/Providers, including non-medical facilities, who have not entered into an agreement with us to provide Health Care Services to PHP Members.

Covered Health Care Services obtained from an Out-of-network Practitioner/Provider **or outside the Service Area will not be Covered** unless such services are not reasonably available from an In-network Practitioner/Provider or in cases of an emergency. You will not pay higher or additional Cost Sharing amounts under such circumstances.

Services provided by an Out-of-network Practitioner/Provider, except Emergency services, require that your Primary Care Physician request and obtain written approval (Authorization) from our Medical Director **BEFORE** services are rendered. Otherwise, **you will be responsible for payment**. Please refer to the **Prior Authorization Section** for more information on Prior Authorization requirements.

Refer to

If the services of an Out-of-network Practitioner/Provider are required, your In-network Practitioner/Provider must request and obtain Prior Authorization from our Medical Director **BEFORE** services are performed, otherwise, we will not Cover the services and you will be responsible for payment.

Before the Medical Director may deny a request for specialist services that are unavailable from an In-Network Practitioner/Provider, the request must be reviewed by a specialist similar to the type of specialist to whom the Prior Authorization is requested.

In determining whether a Prior Authorization to an Out-of-network Practitioner/Provider is reasonable, we will consider the following circumstances:

- Availability – The In-network Practitioner/Provider is not reasonably available to see you in a timely fashion as dictated by the clinical situation.
- Competency – The In-network Practitioner/Provider does not have the necessary training or expertise required to render the service or treatment.
- Geography – The In-network Practitioner/Provider is not located within a reasonable distance from your residence. A “reasonable distance” is defined as travel that would not place you at any medical risk.
- Continuity –If the requested Out-of-network Practitioner/Provider has a well- established professional relationship with you and is providing ongoing treatment of a specific medical problem, you will be allowed to continue seeing that specialist for a minimum of 30 days as needed to ensure continuity of care.

- Any Prior Authorization requested simply for your convenience **will not be considered to be reasonable.**

**Services of an Out-of-network Practitioner/Provider will not be Covered** unless this Prior Authorization is obtained prior to receiving the services. **You may be liable for the charges** resulting from failure to obtain Prior Authorization for services provided by the Out-of-network Practitioner/Provider.

Out-of-network Practitioners/Providers may require you to pay them in full at the time of service. You may have to pay them and then file your claim for reimbursement with us. We will only pay this claim if the service provided was Authorized by us or was due to an Urgent or Emergency Health Care Services situation.

## **Restrictions on Services Received Outside of the PHP Service Area**

Emergency Health Care Services and/or Urgent Care services outside of the State of New Mexico will be Covered. For Emergency Health Care Services and/or Urgent Care services received outside of New Mexico, you may seek services from the nearest appropriate facility where Emergency Health Care Services / Urgent Care services may be rendered.

## **National Health Care Practitioner/Provider Network**

When receiving Urgent or Emergency Health Care Services outside of the State of New Mexico you can help reduce the cost of such services by seeking care from one of our National Health Care Provider Network Practitioners/Providers. These cost savings can help minimize future premium increases.

For additional information regarding National Health Care Practitioner/Providers please call our Presbyterian Customer Service Center prior to obtaining services Monday through Friday from 7:00 a.m. to 6:00 p.m. at **(505) 923-5678 or toll-free at 1-800-356-2219**. Hearing impaired users may call the **TTY line at (505) 923-5699 or toll-free 1-877-298-7407**.

## **Cost-sharing – Your Out-of-pocket Costs**

Many Health Care Services you receive from In-network and Out-of-network Practitioners and Providers require some payment from you. We refer to these payments as Cost Sharing. These are your Out-of-pocket costs and may be Deductibles, Coinsurance and/or Copayment amounts.

## **Annual Calendar Year Deductible**

Certain services are subject to an Annual Calendar Year Deductible. The Annual Calendar Year Deductible is the amount you and your Covered Dependents must pay for Covered Health Care Services each Calendar Year before we begin to pay Covered Benefits for that Member. The Annual Calendar Year Deductible may not apply to all Health Care Services. Refer to your ***Summary of Benefits and Coverage*** for the amount of your Annual Calendar Year Deductible.

For Single coverage, the annual Calendar Year Deductible requirement is fulfilled when one Member meets the individual Deductible listed in the ***Summary of Benefits and Coverage***.

For double or family coverage, with two or more enrolled Members, the **entire** Family Deductible must be met before benefits will be paid for the family. However, if one (family) Member reaches the Individual Deductible amount before the Family has met the Family Deductible, the Plan will begin paying benefits for that Member who has met the Individual Deductible. The Family and Individual Deductible amounts are listed in the *Summary of Benefits and Coverage*.

## Changes to Deductible

Changes to the Deductible may only be made at renewal.

## Coinsurance

Certain services are subject to a Coinsurance amount. Coinsurance is the percentage of Covered charges that you and your Covered Dependents must pay directly to the In-network Practitioner/Provider for Covered Services after the Annual Calendar Year Deductible has been met. After you pay your Coinsurance amount, we will pay our percentage of the charges. Coinsurance is included in your Annual Out-of-pocket Maximum. The amount of your Coinsurance for each service can be found in your *Summary of Benefits and Coverage*.

## Annual Out-of-pocket Maximum

This Plan includes an Annual Out-of-pocket Maximum amount to help protect you and your Covered Dependents from high-cost catastrophic health care expenses. The Annual Out-of-pocket Maximum is the most you will pay in Cost Sharing in a Calendar Year for certain Covered Services. After you have met your Annual Out-of-pocket Maximum in a Calendar Year, we pay 100% of the cost for Covered Services, for the remainder of that Calendar Year, up to the maximum benefit amount, if any. Refer to your *Summary of Benefits and Coverage* for the Plan Annual Out-of-pocket Maximum.

For single coverage, the Out-of-pocket Maximum requirement is fulfilled when one Member meets the Individual Out-of-pocket Maximum listed in the *Summary of Benefits and Coverage*.

For double or family coverage, with two or more enrolled Members, the **entire** Family Out-of-pocket Maximum must be met before benefits will be paid at 100%. However, if one (family) Member reaches the Individual Out-of-pocket maximum amount before the Family has met the Family Out-of-pocket maximum benefits will be paid at 100% for that Member who has met the Individual Out-of-pocket maximum. The Family and Individual Out-of-pocket maximums amounts are listed in the *Summary of Benefits and Coverage*.

The Annual Out-of-pocket Maximum includes Deductible, Coinsurance and Copayments. **It does not include** non-covered charges including charges incurred after the benefit maximum has been reached. PHP pays 100% of Covered charges after the Out-of-pocket Maximum is met.

To inquire about the status of your specific Annual Out-of-pocket Maximum, you may call our Presbyterian Customer Service Center Monday through Friday from 7:00 a.m. to 6:00 p.m. at **(505) 923-5678 or toll-free at 1-800-356-2219**. Hearing impaired users may call the **TTY line at (505) 923-5699 or toll-free 1-877-298-7407**.

## Office Visit Copayment

If your Plan has an Office Visit Copayment, this is the amount of Cost Sharing you must pay each time you have an office visit with an In-network Practitioner/Provider. This Copayment is for the office visit only. All other services provided during the visit are subject to other Cost Sharing (Deductible and Coinsurance). Refer to your *Summary of Benefits and Coverage* for all Cost Sharing Copayment, Deductible and Coinsurance amounts.

## Utilization Management and Quality

We may review medical records, claims, and requests for Covered Services to establish that the services are/were Medically Necessary, delivered in the appropriate setting, consistent with the condition reported and with generally accepted standards of medical and surgical practice in the area where performed and according to the findings and opinions of our professional medical consultants. Utilization management decisions are based only on appropriateness of care and service. We do not reward Practitioners or other Health Care Professionals conducting Utilization Review for denying coverage or services and we do not offer incentives to encourage underutilization.

## Technology Assessment Committee

We have a process to continuously evaluate evolving medical technologies, which include medical procedures, drugs and devices. In-network Practitioners from our Provider Network and the community along with other clinical staff are responsible for this process and are known as the Technology Assessment Committee.

The Technology Assessment Committee evaluates new technologies and/or new applications of existing technologies, determines the value of the new technology, and recommends whether the technology should be a specified Covered Benefit of your Plan. Factors to be considered include safety, comparison to existing drugs, procedures and technology, cost and effectiveness of the new technology, and clinical skills and training of those proposing to provide the new technology.

## Transition of Care/Continuity

If you are in an ongoing course of treatment with an In-network Practitioner/Provider and that Provider/Practitioner becomes an Out-of-network Practitioner/Provider, you will be allowed to continue care from this Practitioner/Provider for a transitional period of time.

- If a Member's health care Practitioner/Provider leaves the PHP network, the Member may continue an ongoing course of treatment with that Practitioner/Provider for a transitional period of no less than 30 days.
- This "transitional period rule" does not apply for any Practitioner/Provider who has been terminated from the network for reasons related to medical competence, professional misbehavior, or circumstances involving fraud and abuse.

Please contact our Health Services Department at **1-888-923-5757** Monday through Friday from 8:00 a.m. to 5:00 p.m. for further information on Transition of Care/Continuity of Care.

## **Advance Directives**

Advance Directives are the legal documents in which you give written instructions about your health care if in the future you cannot speak for yourself. You have the right to make choices about your own health care and the right to choose someone else to make health care decisions for you. Advance Directives help health care workers care for people.

## **Health Improvement Related Activities**

We may offer incentives to Covered Persons to promote the delivery of preventive care or other health improvement activities. Health improvement activities may include participation in disease management programs, educational health programs or surveys regarding your understanding of your Covered Benefits. Your participation is strictly voluntary. The level and type of incentives will be determined based upon the nature of the preventive care or health improvement activity.

## **PRIOR AUTHORIZATION**

**This Section explains what Covered Health Care Services require Prior Authorization before you receive these services and how to obtain Prior Authorization. This is not an exhaustive list. Further information can be obtained through your PCP or at our website at [www.phs.org](http://www.phs.org).**

Before you are admitted as an Inpatient to a Hospital, Skilled Nursing Facility or other facility or before you receive certain Covered Health Care Services and supplies, you must request and obtain approval, known as Authorization. All diabetes related services are provided in accordance with State law. For diabetes related services, please refer to the Diabetes Services section.

### **What is Prior Authorization?**

Prior Authorization is a clinical evaluation process to determine if the requested Health Care Service is Medically Necessary, a Covered Benefit, and if it is being delivered in the most appropriate health care setting. Our Medical Director or other clinical professional will review the requested Health Care Service and, if it meets our requirements for Coverage and Medical Necessity, it is Authorized (approved) before those services are provided.

The Prior Authorization process and requirements are regularly reviewed and updated based on various factors including evidence-based practice guidelines, medical trends, Practitioner/Provider participation, state and federal regulations, and our policies and procedures.

A Prior Authorization will specify the length of time for which the Authorization is valid, which in no event shall be for more than twenty-four (24) months. You may revoke an Authorization at any time.

A consumer or customer who is the subject of nonpublic personal information may revoke an authorization provided pursuant to this rule at any time, subject to the rights of an individual who acted in reliance on the authorization prior to notice of the revocation.

### **Prior Authorization Is Required**

Certain services and supplies are Covered Benefits only if we Authorize them prior to the actual service or delivery of supplies. Authorization means our decision that a Health Care Service requested by your Practitioner/Provider or by you has been reviewed and, based upon information available, meets our requirements for Coverage and Medical Necessity, and the requested Health Care Service is therefore approved.

If a required Prior Authorization is not obtained for services by Out-of-Network Practitioners/Providers, except for Emergency Care, the Member will be responsible for the resulting charges. Services provided beyond the scope of the Prior Authorization are not Covered.

## Prior Authorization when In-network

When you seek specific Covered Services from In-network Practitioners/Providers, our In-network Practitioner/Provider is responsible for obtaining Prior Authorization from us before providing the Covered Services, except for Emergency Care. You will not be liable for charges resulting from the In-network Practitioner's/Provider's failure to obtain the required Prior Authorization.

## Prior Authorization when Out-of-network

**Covered services obtained from an Out-of-network Practitioner/Provider or outside New Mexico will not be Covered** unless such services are not reasonably available from an In-network Practitioner/Provider or in cases of an emergency.

If required medical services are not available from In-network Practitioners/Providers, the **Primary Care Physician must request Prior Authorization and obtain written Authorization** from our Medical Director before you may receive Out-of-network services. **Services of an Out-of-network Practitioner/Provider will not be Covered** unless this Authorization is obtained prior to receiving the services. You may be responsible for charges resulting from failure to obtain Prior Authorization for services provided by the Out-of-network Practitioner/Provider.

In determining whether a referral to an Out-of-network Practitioner/Provider is necessary, we, in consultation with your referring In-network Physician and/or PCP will consider the following circumstances:

- Availability – The In-network Practitioner/Provider is not reasonably available to see you in a timely fashion as dictated by the clinical situation.
- Competency – The In-network Practitioner/Provider does not have the necessary training or expertise required to render the service or treatment.
- Geography – The In-network Practitioner/Provider is not located within a reasonable distance from the patient's residence. A "reasonable distance" is defined as travel that would not place you at any medical risk.
- Continuity – If the requested Out-of-network Practitioner/Provider has a well-established professional relationship with you and is providing ongoing treatment of a specific medical problem, you will be allowed to continue seeing that specialist for a minimum of thirty (30) days as needed to ensure continuity of care.
- Any Prior Authorization requested simply for your convenience will not be considered to be reasonable.

## Services That Require Prior Authorization In or Out-of Network

Prior Authorization is required for Inpatient admissions, and all services related to the inpatient admission before you receive these services In-network or Out-of-network from any Practitioner/Provider, Health Care Facility or other Health Care Professional. Our network of

Practitioners/Providers will obtain Prior Authorization for you when you receive care In-network. You are responsible for obtaining Prior Authorization before you receive care Out-of-network, except for Emergency Care.

If you want to know more about Prior Authorization, please call our Presbyterian Customer Service Center, as soon as possible before services are provided, Monday through Friday from 7:00 a.m. to 6:00 p.m. at **(505) 923-5678 or toll-free at 1-800-356-2219**. ### **Authorizing Inpatient Hospital Admission following an Emergency**

You do not need to get Prior Authorization when you receive Emergency Health Care Services. If you are admitted as an Inpatient to the Hospital following your Emergency Health Care Services your Practitioner/Provider or you should contact us as soon as possible.

## Prior Authorization and Your Coverage

Obtaining **Prior Authorization** does not guarantee your eligibility for coverage, or that benefits will be paid.

- Eligibility and benefits are based on the date you received the services, not the date you received Prior Authorization.
- If you lose Coverage under this plan, services received after Coverage ends will not be Covered, even if we provided Prior Authorization.

## Prior Authorization Decisions – Non-Emergency

We will evaluate non-emergent Prior Authorization requests and advise you and your Practitioner/Provider of our decision within five (5) working days.

## Prior Authorization Decision – Expedited (Accelerated)

If your medical condition requires that we make a Prior Authorization decision quickly, we will notify you and your Practitioner/Provider of an expedited decision, within twenty-four (24) hours of our receipt of the written or verbal request for an expedited decision.

## Prior Authorization Review – Initial Adverse Determination

If we do not approve the Prior Authorization request (Adverse Determination) we will notify you and your Practitioner/Provider by telephone (or as required by your medical situation) within twenty-four (24) hours of making our decision.

We will also notify you and your Practitioner/Provider of the Adverse Determination by written or electronic communication sent within one (1) working day of a telephone notice. Our notice will include:

- Reasons for a Medical Necessity denial including why the requested health care service is not Medically Necessary.
- The reason for a denial based on lack of coverage and a reference to all health care plan provisions on which the denial is based and a clear and complete explanation of why the Health Care Service is not Covered.
- An explanation of how you may request our internal review of our Adverse Determination including any forms that must be used and completed.

Please see the **Complaints, Grievances and Appeals Section** for information regarding how to request an internal review of any Adverse Determinations that we make.

## BENEFITS

**This Health Care Benefit Plan offers Coverage for a wide range of Health Care Services. This Section gives you the details about your benefits, and other requirements, Limitations and Exclusions.**

### Specifically Covered

 This Health Care Benefit Plan helps pay for health care expenses that are Medically Necessary and Specifically Covered in this Agreement. Specifically Covered means only those Health Care Benefits that are expressly listed and described in the **Benefits Section** of the Agreement. In addition, you should refer to the **Exclusions Section** that lists services that are not Covered under your Health Care Benefit Plan. All other benefits and services not specifically listed as Covered in the Benefits Section shall be **excluded, except for Clinical Preventive Health Services**.

We determine whether a Health Care Service or supply is a specifically Covered Benefit. The fact that a Practitioner/Provider has prescribed, ordered, recommended, or approved a Health Care Service or supply does not guarantee that it is a Covered Benefit even if it is not listed as an **Exclusion**.

Specifically Covered Benefits are subject to the **Limitations, Exclusions, Prior Authorization** and other provisions of this Agreement.

### Medical Necessity

This Health Care Benefit Plan helps pay for health care expenses that are Medically Necessary and specifically Covered in this Agreement. **Clinical Preventive Services do not have to be “Medically Necessary”.**

Medical Necessity or Medically Necessary means Health Care Services determined by a Practitioner/Provider, in consultation with Presbyterian Health Plan (PHP), to be appropriate or necessary, according to any applicable generally accepted principles and practices of good medical care or practice guidelines developed by the federal government, national or professional medical societies, boards and associations, or any applicable clinical protocols or practice guidelines we developed consistent with such federal, national, and professional practice guidelines, for the diagnosis or direct care and treatment of a physical, behavioral or mental health condition, illness, injury, or disease.

**Experimental or Investigational drugs, medicines, treatments, procedures, or devices are not Covered.**

### Care Coordination and Case Management

Case Coordination and Case Management are provided by our Integrated Care Solutions Department which is staffed with registered nurses, social workers, health educators, behavioral health specialists and non-licensed care coordinators that coordinate Covered and non-Covered Health Care Services for you when you have ongoing or complex diagnoses.

The role of the care manager is to support and educate you and other Members, so that you are able to make informed health care decisions. Our ongoing communication and visits to you and to other Members who may have a chronic illness can trigger prompt intervention and help in the prevention of avoidable episodes of illness. We are committed to the personal service that care management provides to you when you are in need.

When you are in the Hospital, our care managers work with the Hospital, their discharge planners and your Practitioners to make sure you get the appropriate level of care and to coordinate your care after you leave the Hospital.

Disease management lifestyle coaches work with you to help you better manage your chronic disease, such as diabetes, coronary artery disease or congestive heart failure. Care is focused on helping you identify goals and desires for improving management of your chronic disease.

## Health Management Programs

Our clinically trained Health Care Professionals work with your Practitioners/Providers to help enhance your quality of life in three areas: Staying healthy, Living with illness, and Getting Better. We help you reach optimum health through Clinical Preventive Health Services (such as Screening Mammography and childhood immunizations) as well as with disease management for conditions such as asthma, depression, diabetes, smoking cessation, and high-risk pregnancies.

If you would like more information about these services, please call our Presbyterian Customer Services at **(505) 923-6980** or toll-free **1-800-923-6980** Monday through Friday from 7:00 a.m. to 6:00 p.m. Hearing impaired users may call our TTY number at **(505) 923-5699** or toll-free at **(877) 298-7407**. ## Covered Benefits

### ➤ **Accidental Injury (Trauma), Urgent Care, Emergency Health Care Services, and Observation Services**

Exclusion

**This benefit has one or more exclusions as specified in the Exclusions Section.**

- **Urgent Care**

Urgent Care is Medically Necessary medical or surgical procedures, treatments, or Health Care Services you receive in an Urgent Care Center or in a Practitioner's/Provider's office for an unforeseen condition due to illness or injury. Urgent conditions are not life-threatening, but require prompt medical attention to prevent a serious deterioration in your health.

- Members are encouraged to contact their Primary Care Physicians for an appointment, if available, before seeking care from another Practitioner/Provider.
- We must Prior-Authorize follow-up care by an Out-of-network Practitioner/Provider. **The Member will be responsible for charges that we do not Cover.**

If you believe the condition to be treated is life threatening, you should seek Emergency Health Care Services as outlined below.

- **Emergency Health Care Services**

- This Agreement covers acute Emergency Health Care Services 24 hours per day, 7 days per week, when those services are needed immediately to prevent jeopardy to your health. You should seek medical treatment from an In-network Practitioner/Provider or facility whenever possible.
- If you cannot reasonably access an In-network Facility, we will arrange to Cover the care at an Out-of-Network facility without additional cost. Whether Out-of-network Emergency Health Care Service is appropriate will be determined by the Reasonable/Prudent Layperson standard discussed below.

In determining whether you acted as a Reasonable/Prudent Layperson we will consider the following factors:

- ◆ A reasonable person's belief that the circumstances required immediate medical care that could not wait until the next working day or the next available appointment
- ◆ The presenting symptoms
- ◆ Any circumstance that prevented you from using our established procedures for obtaining Emergency Health Care Services
- Coverage for trauma services and all other Emergency Health Care Services will continue at least until you are medically stable, do not require critical care, and can be safely transferred to an In-network facility based on the judgment of the attending Physician in consultant with us and in accordance with federal law.
- We will provide reimbursement when you, acting in good faith, obtain Emergency Health Care Services for what reasonably appears to you, acting as a Reasonable/Prudent Layperson, to be an acute condition that requires immediate medical attention, even if your condition is later determined to not be an emergency.
- Prior Authorization is not required for Emergency Health Care Services. If you are admitted as an Inpatient to the Hospital, you or your Practitioner needs to notify us as soon as possible so we can review your Hospital stay.
- We will not deny a claim for Emergency Health services when the Member was referred to the emergency room by his or her PCP or by our representative.

**Timeframe  
associated  
with this item**

- If your Emergency Health services results in a hospitalization directly from the emergency room, you are responsible for paying the Inpatient Hospital Cost Sharing amounts (Deductible, Coinsurance and/or Copayment) rather than the emergency room visit Copayment. Refer to your **Summary of Benefits and Coverage** for the Cost Sharing amount.

Prior Auth  
Required

- For Emergency Health Care Services received Out-of-network and/or outside of New Mexico (our Service Area), you may seek Emergency Health Care Services from the nearest appropriate facility where Emergency Health Care Services can be rendered. **Non-emergent follow-up care received outside of New Mexico is not Covered** unless transfer to an In-network Practitioner/Provider would be medically inappropriate and a risk to your health. In such circumstances, we must Authorize the Health Care Services. **Non-emergent follow-up care outside of New Mexico is not Covered** for your convenience or preference. **You are responsible for any such charges that we do not Authorize.**
- Follow-up care from an Out-of-network Practitioner/Provider requires our Prior Authorization.

- **Observation Services**

Observation services are defined as Outpatient services furnished by a Hospital and Practitioner/Provider on the Hospital’s premises. These services may include the use of a bed and periodic monitoring by a Hospital’s nursing staff which are reasonable and necessary to:

- Evaluate an outpatient’s condition
- Determine the need for a possible admission to the Hospital
- When rapid improvement of the patient’s condition is anticipated or occurs

Prior Auth  
Required

When a Hospital places a patient under Outpatient Observation, it is based upon the Practitioner’s/Provider’s written order. To transition from Observation to an Inpatient admission, our level of care criteria must be met. The length of time spent in the Hospital is not the sole factor determining Observation versus Inpatient stays. Medical criteria will also be considered. **Observation Services for greater than 24 hours will require Prior Authorization.** It is the responsibility of the facility to notify us.

All Accidental Injury (trauma), Urgent Care, Emergency Health Care Services, and Observation Services whether provided within or outside of our Service Area are subject to the **Limitations** listed in the **Limitations Section** and the **Exclusions listed in the Exclusions Section.**

## ➤ Ambulance Services

The following types of Ambulance Services are Covered: (1) Emergency Ambulance Services, (2) High-Risk Ambulance Services, and (3) Inter-facility Transfer services.

- **Emergency Ambulance Services** are defined as ground or air Ambulance Services delivered to a Member who requires Emergency Health Care Services under circumstances that would lead a Reasonable/Prudent Layperson acting in good faith to believe that transportation in any other vehicle would endanger your health. **Emergency Ambulance Services are Covered only under the following circumstances:**
  - Within New Mexico, to the nearest In-network facility where Emergency Health Care Services and treatment can be rendered, or to an Out-of-network facility if an In-network facility is not reasonably accessible. Such services must be provided by a licensed Ambulance Service, in a vehicle that is equipped and staffed with life-sustaining equipment and personnel.
  - Outside of New Mexico, to the nearest appropriate facility where Emergency Health Care Services and treatment can be rendered. Such services must be provided by a licensed Ambulance Service, in a vehicle that is equipped and staffed with life-sustaining equipment and personnel.
  - We will not pay more for air Ambulance Services than we would have paid for ground Ambulance Services over the same distance unless your condition renders the utilization of such ground transportation services medically inappropriate.
  - In determining whether you acted in good faith as a Reasonable/Prudent Layperson when obtaining Emergency Ambulance Services, we will take the following factors into consideration:
    - ◆ Whether you required Emergency Health Care Services, as defined above
    - ◆ The presenting symptoms
    - ◆ Whether a Reasonable/Prudent Layperson who possesses average knowledge of health and medicine would have believed that transportation in any other vehicle would have endangered your health
    - ◆ Whether you were advised to seek an Ambulance Service by your Practitioner/Provider or by our staff. Any such advice will result in reimbursement for all Medically Necessary services rendered, unless otherwise limited or **excluded** under this Agreement
    - ◆ Ground or air Ambulance Services to any Level I or II or other appropriately designated trauma/burn center according to established emergency medical services triage and treatment protocols

Ambulance Service (ground or air) to the coroner's office or to a mortuary is not Covered, unless the Ambulance had been dispatched prior to the pronouncement of death by an individual authorized under state law to make such pronouncements.

- **High-Risk Ambulance Services** are defined as Ambulance Services that are:
  - Non-emergency
  - Medically Necessary for transporting a high-risk patient
  - Prescribed by your Practitioner/Provider

Coverage for High-Risk Ambulance Services is limited to:

- Air Ambulance Service when Medically Necessary. However, we will not pay more for air Ambulance Service than we would have paid for transportation over the same distance by ground Ambulance Services, unless your condition renders the utilization of such ground Ambulance Services medically inappropriate.
  - Neonatal Ambulance Services, including ground or air Ambulance Service to the nearest Tertiary Care Facility when necessary to protect the life of a newborn.
  - Ground or air Ambulance Services to any Level I or II or other appropriately designated trauma/burn center according to established emergency medical services triage and treatment protocols.

You generally won't have any claims to file or claim forms to fill out for medical services obtained from In-network Practitioners/Providers. Your In-network Practitioner/Provider will bill us directly. Most medical services do, however, require a Cost Sharing amount (Copayments, Deductible and/or Coinsurance) that you pay at the time of service. The amount of your Cost Sharing responsibility for each service can be found in your *Summary of Benefits and Coverage*.

### Notice of Claim

Timeframe  
associated

Written notice of claim must be given to us within **twenty days** after the date of loss or as soon as reasonably possible. Failure to give notice within the time specified will not invalidate or reduce any claim if notice is given as soon as reasonably possible.

You may call or write to us to notify us of a claim. Upon receipt of a notice of claim, we will furnish you with the forms needed for filing proof of service. Forms will be furnished within 15 days after we receive such notice. You may access our web site, [www.phs.org](http://www.phs.org) to obtain a claim form.

## EFFECTS OF OTHER COVERAGE

**This Section explains how we will coordinate benefits should you have medical coverage through another Health Benefits Plan.**

### Coordination of Benefits

If you have medical coverage under any other Health Benefits Plan, other public or private group programs, or any other health insurance policy, the benefits provided or payable hereunder shall be reduced to the extent that benefits are available to you under such other plan, policy or program.

The rules establishing the order of benefit determination between this Agreement and any other plan covering a Member not on COBRA continuation on whose behalf a claim is made are as follows:

- Employee/Dependent Rule
  - The plan, which covers you as an employee, pays first.
  - The plan, which covers you as a Dependent, pays second.
- Birthday Rule for Dependent children of parents who are not separated or divorced
  - The plan, which covers the parent whose birthday falls earlier in the year, pays first. The plan, which covers the parent whose birthday falls later in the year, pays second. The birthday order is determined by the month and the day of birth, not the year of birth.
  - If both parents have the same month and day of birth, the plan that Covered the parent longer, will pay claims first. The plan which covered the parent for a shorter period of time pays second.
- Dependent children of separated or divorced parents
  - The plan of the parent decreed by a court of law to have responsibility for medical coverage pays first.
  - In the absence of a court order:
    - The plan of the parent with physical custody of the child pays first.
    - The plan of the Spouse of the parent with physical custody (i.e., the stepparent) pays second.
    - The plan of the parent not having physical custody of the child pays third.

- Active/Inactive Employee
  - The plan, which covers you as an active employee (or Dependent of an active employee), pays first.
  - The plan, which covers you as a retired or laid-off employee (or Dependent of a retired or laid-off employee), pays second.
- Longer/Shorter Employment
  - In the case where you are the Subscriber under more than one group health insurance policy, then the plan that has Covered you for a longer period of time will pay first. A change of insurance carrier by the group employer does not constitute the start of a new plan.
- No Coordination Provision
  - In spite of the rules listed above, the plan that has no provision regarding coordination of benefits will pay first.
- If you are covered under a motor vehicle or homeowner's insurance policy which provides benefits for medical expenses resulting from a motor vehicle accident or accident in your own home, you shall not be entitled to benefits under this Agreement for injuries arising out of such accident to the extent they are covered by the motor vehicle or home owner's insurance policy. If we have provided such benefits, we shall have the right to recover any benefits we have provided from you or from the motor vehicle or homeowner's insurance to the extent they are available under the motor vehicle or homeowner's insurance policy.

In no event shall the Covered Benefits received under this Agreement and all other plans combined exceed the total reasonable actual expenses for the services provided under this Agreement.

For purposes of coordination of benefits,

- We may release, request, or obtain claim information from any individual or organization. In addition, any Member claiming benefits from us shall furnish us with any information which we may require.
- We have the right, if we make overpayments because of your failure to report other coverage or any other reason, to recover such excess payment from any individual to whom, or for whom, such payments were made.
- We will not be obligated to pay for non-Covered Services or Covered Benefits not obtained in compliance with our policies and procedures.

## **Medicare**

If you are enrolled in Medicare, the Covered Benefits provided by this Agreement are not designed to duplicate any benefit to which you are entitled under the Social Security Act. Covered Benefits will be coordinated in compliance with current applicable federal regulations.

## **Medicaid**

The Covered Benefits payable by us under this Agreement, on behalf of a Member who is qualified for Medicaid, will be paid to the state Human Services Department, or its designee, when:

- The Human Services Department has paid or is paying benefits on behalf of the Member under the state's Medicaid program pursuant to Title XIX and/or Title XXI of the Federal Social Security Act.
- The payment for the services in question has been made by the state Human Services Department to the Medicaid Practitioner/Provider.

## **Subrogation (Recovering Health Care Expenses from Others)**

- The Covered Benefits under this Agreement will be available to you if you are injured by the act or omission of another person, firm, operation or entity. If you receive Covered Benefits under this Agreement for treatment of such injuries, we will be subrogated to your rights or the Personal Representative of a deceased Member, or Dependent Member, to the extent of all such payments made by us for such benefits. This means that if we provide or pay Covered Benefits, you must repay us the amounts recovered for all such payments made by us in any lawsuit, settlement, or by any other means. This rule applies to any and all monies you may receive from any third party or insurer, or from any uninsured or underinsured motorist insurance benefits, as well as from any other person, organization or entity.
- By way of illustration only, our right of subrogation includes, but is not limited to, the right to be repaid when you recover money for personal injury sustained in a car accident. The subrogation right applies whether you recover directly from the wrongdoer or from the wrongdoer's insurer, or from your uninsured motorist insurance coverage. You agree to sign and deliver to us such documents and papers as may be necessary to protect our subrogation right. You also agree to keep us advised of:
  - Any claims or lawsuits made against any person, firm or entity responsible for any injuries for which we have paid Covered Benefits.
  - Any claim or lawsuit against any insurance company, or uninsured or underinsured motorist insurance carrier.
- Settlement of a legal claim or controversy without prior notice to us is a violation of this Agreement. In the event you fail to cooperate with us or take any action, through agents or

otherwise, to interfere with the exercise of our subrogation right, we may recover our Covered Benefit payments from you.

- When reasonable collection costs and reasonable legal expenses have been incurred in recovering sums which benefit both you and us, we will, upon request by you or your attorney, share such collection costs and legal expenses, in a manner that is fair and equitable, but only if we receive appropriate documentation of such collection costs and legal expenses.

accordance with our procedures for Adverse Determination Grievances and the requirements of state law.

### **Initial Determinations**

- **Coverage.** When considering whether to certify a Health Care Service requested by a Practitioner/Provider or you, we shall determine whether the requested Health Care Service is Covered by the Health Benefits Plan. that there is no provision of the Health Benefits Plan under which the requested Health Care Service could be Covered. If we find that the requested Health Care Service is not Covered by the Health Benefits Plan, we need not address the issue of Medical Necessity.

- If we find that the requested Health Care Service is covered by the Health Benefits Plan, then when considering whether to certify a Health Care Service requested by a Practitioner/Provider or you, a Physician, registered nurse, or other Health Care Professional shall, within the timeframe required by the medical exigencies of the case, determine whether the requested Health Care Service is Medically Necessary.

This exception is not available if the violation is part of a pattern or practice of violations by us.
  - You may request a written explanation of the violation from us, and we must provide such explanation within **ten (10) days**, including a specific description of its bases, if any, for asserting that the violation should not cause the internal claims and Appeals process to be deemed exhausted. If an external reviewer or a court rejects your request for immediate review under Exhaustion of Remedies of this section and state law on the

basis that we met the standards for the exception under Exception to Exhaustion Requirement of this section, you have the right to resubmit and pursue the internal Appeal of the claim. In such a case, within a reasonable time after the external reviewer or court rejects the claim for immediate review (not to exceed **ten (10) days**), we shall provide you with notice of the opportunity to resubmit and pursue the internal Appeal of the claim. Time periods for re-filing the claim shall begin to run upon your receipt of such notice.

### **Confidentiality of Protected Health Information/Medical Records**

You will receive a Notice of Privacy Practices that we issue, which will contain a statement of your rights with respect to PHI and a brief description of how you may exercise your rights.

➤ **What is PHI?**

Protected Health Information, or PHI, is any health information about you that clearly identifies you or that could reasonably be used to identify you and your health needs that we send, receive, or keep as part of our daily work to improve your health. This includes information sent, received, and kept by electronic, written and oral means. Medical records and claims are two examples of PHI.

We keep your PHI safe. Unless otherwise permitted or required by law, we will not disclose confidential information without your consent/authorization. Your privacy in all settings is important to us.

As a Member you (or your legal guardian/Personal Representative) have the right to:

- Request restrictions on certain uses and disclosures of PHI, although we are not required to agree to a requested restriction.
- Receive confidential communications of PHI from us.
- With certain exceptions, inspect and receive a copy of PHI.
- Request an amendment to PHI you believe to be incorrect or incomplete.
- Receive an accounting of certain disclosures of PHI.
- Obtain a paper copy of the Notice of Privacy Practices from us upon request (even if you previously agreed to receive the Notice(s) electronically).

➤ **Access to PHI**

All confidential documents are kept in a physically secure location with access limited to authorized Plan personnel only. You (or your legal guardian/Personal Representative) have the right, with certain exceptions, to request access to inspect and obtain a copy of your PHI. We may charge a reasonable fee for providing a copy, summary or explanation of the information you request. If there is a fee, we will tell you how much it will cost before we provide the requested information. You may change your request to avoid or reduce the fee.

You do not have the right to inspect or obtain a copy of PHI that consists of:

- Psychotherapy notes
- Information gathered in reasonable expectation of, or for use in, a civil, criminal, or Administrative action or proceeding
- PHI maintained by us that is subject to the Clinical Laboratory Improvement Amendments of 1988 (CLIA) 42 U.S.C. 263a, to the extent the provision of access to you

would be prohibited by law; or exempt from the Clinical Laboratory Improvements Amendments of 1988 (CLIA), pursuant to 42 CFR 493.3(a)(2)

Our employees refer to your Personal Health Information only when necessary to perform assigned duties for their job. Our employees handle your health records according to our stringent confidentiality policies.

➤ **Consents/Authorizations**

Although consent from you (or your legal guardian/Personal Representative) is not required to use or disclose PHI for certain purposes specified in the law, a Practitioner/Provider shall request that you (or your legal guardian/Personal Representative) sign a consent form permitting disclosure of medical records (to the extent permitted by law) to us at the time of your first visit to the Practitioner/Provider.

In the event that the Practitioner/Provider fails to obtain such consent for disclosure to us, or you refuse to sign such consent for disclosure to us, we shall use our best efforts to obtain such written consent from you (or your legal guardian/Personal Representative) prior to the Practitioner's/Provider's release of PHI (i.e., health records) to us for purposes permitted by law.

➤ **Use of Measurement Data**

It is important for us to know about your illnesses to help us improve the quality of care our health care Practitioners/Providers provide to you. We sometimes use medical data (laboratory results, diagnoses, etc.) which does not identify you for this purpose.

➤ **Internal Protection of Oral, Written and Electronic PHI Across PHP**

You must complete and sign an Application and submit it within **31 days** of the date of the change in family status. Terminating Coverage for a Dependent from your benefit plan Coverage is not an event that allows you to change your benefit Plan.

We recognize the following family status changes as a reason for adding or removing Dependents:

### ➤ Marriage

Your newly acquired Spouse (and any children of the Spouse eligible for Coverage under this Section) is eligible to be enrolled as a Dependent. Your spouse (and any child of the spouse eligible for Coverage) must complete and sign an Application and submit it within **31 days** from the date of marriage. You must submit a completed, signed Application within **31 days** of the date of the court and/or qualified administrative order granting guardianship.
- The Dependent child will become a Member on the first day of the month following the date the order is filed with the clerk of the court. The Dependent child will continue to be eligible until such time as you or your Spouse are no longer the legal guardian for such child.

➤ Court ordered or qualified administrative ordered eligible Dependent Coverage

- If you are required by a court or administrative order to provide Coverage for an eligible Dependent child, the Dependent child may be enrolled provided the Subscriber is eligible for family Coverage.

- You must submit a completed and signed Application within **31 days** from the date on which the Subscriber receives the court order or qualified administrative order.
- The Coverage for the eligible Dependent child will become effective on the date in accordance with the court or administrative order. If the court order does not stipulate an effective date, the Dependent child will become Covered effective the first day of the month following the date the order was filed as public record with the court. This includes, but is not limited to children of non-custodial children.
- **If we do not receive an Application within 31 days** of adoption or legal guardianship as identified above, coverage for the newly acquired child will not begin until the first day of the month following receipt of the Application and any applicable payment.

- The last day of the month in which your Dependent child turns age 26, Dependent Coverage will terminate unless the Dependent child is as described in the **Totally and Permanently Disabled Dependent Child in this Section**.

- Upon the death of your Spouse or Dependent child, their Coverage will terminate.

### **Full, Accurate and Complete Information**

You, as a Subscriber, must fully and accurately complete and sign an Application for Coverage as required. False or fraudulent statements or intentional misrepresentations of material fact provided in an Application may result in the Termination of all Coverage for you and your Dependents.

A retroactive Termination of Coverage or rescissions (back to the initial date of enrollment) for fraud or intentional misrepresentation of material fact, except for those attributable to failure to pay prepayments, premiums or contributions may occur.
