Personal and Open Option Provider Directory

Welcome

Thank you for selecting Providence Health Plan. Our commitment is to provide you and your dependents with access to the highest quality health care.

Directory Information

This directory lists active Providence Health Plan providers located in Oregon and southwest Washington as of October 2010. While we make every effort to ensure the accuracy of this directory, changes do occur. We encourage you to use the online provider directory at **www.providence.org/healthplans** or call customer service to verify a provider's participation status.

Customer Service

Portland metro:	503-574-7500
All other areas (toll-free):	800-878-4445
TTY (for the hearing impaired):	503-574-8702 or toll-free 888-244-6642

Personal Health Care Provider

A personal health care provider may be a general or family practitioner, internist, pediatrician or, in some cases, an obstetrician or gynecologist. Personal health care providers perform exams, provide preventive care and treat many routine concerns in their offices. We encourage you to choose one personal physician or provider for your care; however, you are not required to select a personal health care provider.

If you are looking for a new personal health care provider, we recommend you call the provider's office to confirm whether he or she is accepting new patients. You also will need to request that your medical records be transferred from your previous provider's office.

Nationwide Network of Participating Providers

In addition to the participating providers listed in this directory, we also have a nationwide provider network of health care professionals, hospitals and facilities that allow you to receive in-plan benefits while you are outside of the Providence Health Plan service area. For more information, please refer to your Member Handbook or the provider directory at **www.providence.org/healthplans**.

Specialist Care

Your personal health care provider may determine that you require specialist services. Your provider will discuss the decision with you and recommend a participating specialist. While you may choose to visit a participating specialist on your own, we recommend that you also notify your personal health care provider, who will share medical information with your selected specialist. You may see specialists at any time without a referral.

You receive the highest level of benefits (in-plan) when you use participating providers for covered health care services. You also benefit from having coordinated care – meaning providers in our network bill us directly and work with us to arrange your care.

Women's Health Care Providers

Women's health care providers include physicians specializing in obstetrics or gynecology, nurse practitioners, certified nurse midwives or physician assistants specializing in women's health care.

Emergency Care

Whenever possible, we ask our members to call their personal health care provider before seeking emergency care to ensure the quality of your care. **If you believe that taking the time to call your personal health care provider would threaten your life or cause serious damage to your health, go to the nearest emergency room or call 911.**

Mental Health and Chemical Dependency Services

If you are in need of emergency mental health or chemical dependency services, go directly to a hospital emergency room. Non-emergency inpatient, residential and day treatment mental health as well as chemical dependency services are covered benefits only when authorized prior to receiving services. To speak with a Providence Health Plan authorizing agent, call toll-free 800-711-4577.

Native American Members

Native American members may access covered services from Indian Health Service (IHS) facilities. These services are provided for the same cost or a lesser cost than services offered by participating providers. For a list of IHS facilities, visit **www.ihs.gov** or contact the regional office:
