my Direct Blue and my Direct Blue Lehigh Valley Plan Options

This year's plan options are designed with you in mind. Our 2019 plans focus on offering you high-quality care, right in your community. We've also made some changes to simplify access to health care in a way that fits better into your busy life.

To bring you top-quality care, we work with providers to create a network that includes best-fit medical professionals and hospitals.

Plan options include access to Lehigh Valley Health Network facilities that provide comprehensive care to central PA. Lehigh Valley is recognized for its Level 1 trauma center, children's hospital, pediatric emergency room trauma center, and intensive care unit.

Plus, the plan includes services from Allegheny Health Network (AHN) which is the highest-rated health system in western PA⁺ for Medical Excellence in Overall Surgical Care*.

Along with providing access to care close to home, finding a provider is less complicated. Doctors, facilities, and other providers are either in-network or out-of-network—it's that simple.

IMPORTANT NOTE: my Direct Blue Lehigh Valley plans do not include out-of-area BlueCard coverage for routine medical care. Out-of-area BlueCard coverage is only available for emergency care, and urgent care is covered only when you are outside of your plan's service area. If you seek care out of your plan's service area for a non-emergent or non-urgent condition, you are responsible for all costs associated with that care.

See a list of in-network hospitals starting on page 8.

NEW PLAN OPTIONS FOR 2019

my Direct Blue and my Direct Blue Lehigh Valley make it easy to get the care you need with in-network providers. You'll have access to a network of quality doctors and hospitals based in the community.

With some plans you get:

- \$0 copay for your first two PCP office visits*
- \$0 copay for your first two mental health visits*
- \$0 copay for your first two substance abuse office visits*
- \$0 preventive screens, routine wellness exams, immunizations, and vaccinations
- More services that can be paid with a simple copay
- · No referrals to see a specialist

*The availability of \$0 copay visits and the type of visits (PCP, mental health, and/or substance abuse) are dependent upon the plan selected.

Major Events/Catastrophic Coverage

If you are under 30 or meet financial hardship requirements, the lower cost Major Events plan may be for you. It provides the protection you need in case of an emergency, serious illness, or accident. Plus, your first three visits to your primary care doctor—and certain preventive services—are covered at no cost.

Qualified High Deductible Health Plan Advantages

Highmark also offers qualified high deductible plans that may be coupled with a Health Savings Account (HSA). Other than preventive care, you will pay most costs until your deductible is met. After that, Highmark pays for most covered in-network care for the remainder of the benefit period. 2019 plans are available at the Silver metal level.

IN AN EMERGENCY, YOU'RE COVERED!

Your health matters to us. We know medical emergencies happen and you can rest easy knowing that you're covered whether you are home or traveling. But there are some important things that you should know when receiving non-emergency services under Highmark's my Direct Blue plans.*

Out-of-Network Care is available only for Emergencies and Urgent Care when outside of your plan's service area.

my Direct Blue plans include out-of-network care for emergencies and out-of-area urgent care. In a medical emergency, call 911 or go immediately to the nearest emergency room. If in-patient hospital care is required, Highmark will work with the treating physician and hospital to transfer you or your family to an in-network facility once your condition is stable.

REMINDER

It's a good idea to check the status of the provider or facility that you are visiting before you make an appointment. If an out-of-network provider or facility is selected for on-emergency care, you are responsible for all costs associated with that care.

Out-of-Area BlueCard Coverage for my Direct Blue Plans

Get health care benefits worldwide with BlueCard. It's easy - just see any BlueCard provider!

Out-of-Area BlueCard Coverage with my Direct Blue Lehigh Valley Plans

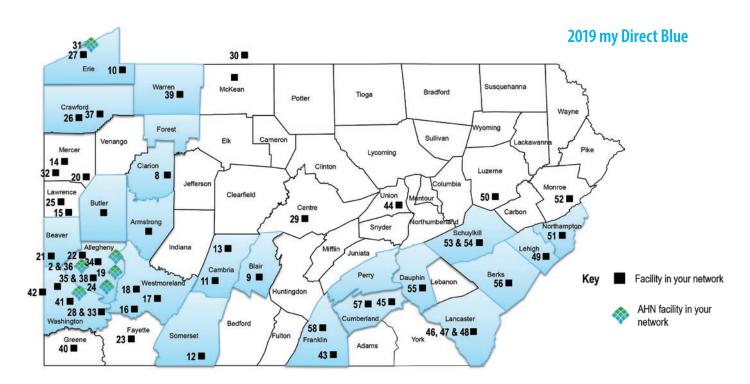

BlueCard coverage is available only for emergency and urgent care when you are away from home. Routine care is not covered. If you seek care out of the my Direct Blue service area for a non-emergent condition, you are responsible for all costs associated with that care.

*Highmark also offers PPO plans. Health care plans are subject to terms of your benefit agreement.

BE WELL-INFORMED Choose a Network Primary Care Provider

Get More From my Direct Blue — Choose an In-Network Primary Care Provider (PCP)

Even when you're healthy, having an in-network PCP feels great. A PCP is the doctor, medical professional, or practice that you visit for your primary and routine health care services, such as physicals and immunizations. The Journal of Health Affairs has found that people with PCPs enjoy lower overall health care costs and higher satisfaction with their care.

A PCP Can Help You:

- Get the most value from your health care dollar
- Achieve health goals
- Monitor chronic health conditions
- Make sure you receive preventive care, like annual exams
- Coordinate the care you receive from other providers, such as specialists, labs, and imaging centers, to prevent gaps or overlaps in service
- · Improve your patient experience

How to Find Out if Your Provider is In-Network: 3 Easy Ways

Doctors, hospitals, and pharmacies in-networks often change. That's why it is very important to make sure your provider and/or facility are in-network before choosing an insurance plan. That way, you'll avoid surprises—and unexpected costs.

If you go to an out-of-network doctor, pharmacy, hospital, or other provider, your services may not be covered by Highmark. You will have to pay 100% of the cost, except in the case of emergency or out-of-area urgent care.

Find a Doctor or Rx

It's quick and easy to find an in-network provider or facility. Search online by plan type to make sure your doctor, specialist or hospital is in-network. See maps, office hours, quality ratings, member reviews and more. Visit HighmarkBlueShield.com and click Find a Doctor or Rx to get started.

It's easy to check which prescribed drugs are covered under your 2019 insurance plan. View Highmark's online Rx drug listing (or formulary) at HighmarkBlueShield.com and click Find a Doctor or Rx.

2019 Prescription Drug List

Prescription drugs are an important part of your coverage. The list of the drugs that your plan covers is called a "formulary."

As you choose a plan for 2019, be well-informed and avoid surprises. Be sure to check to see if your prescription drugs will be covered.

Highmark plans use the Essential Formulary which groups drugs into four levels or "tiers." Each tier may include generic, brand-name and/or specialty drugs. If your doctor prescribes a drug that is not included in the Essential Formulary, you may have to pay 100% out of pocket, unless an exception is granted.

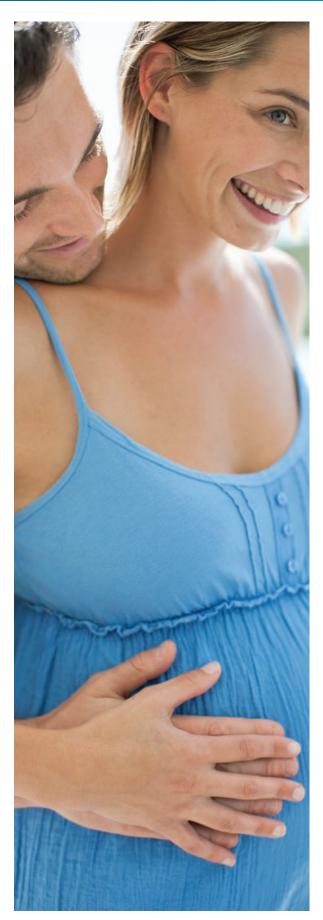

It's easy to check how your prescription drugs are covered —visit HighmarkEssentialFormulary.com.

Essential Formulary - 4 Tiers of Drugs

Tier 1	Tier 2	Tier 3	Tier 4
Low-Cost Generics	Medium-Cost Generics & Low-Cost Brands	High-Cost Generics & Medium/High- Cost Brands	High-Cost Generics & High-Cost Brands

BE PREPARED Before You Choose

Ask yourself these important questions before choosing a plan!

- Is my doctor in-network?
- Is my hospital in-network?
- At what tier are my prescription drugs covered at and how much will they cost?
- · Can I get financial help through the Marketplace?
- Would I rather have lower monthly premiums or lower copays?
- Should I open a Health Savings Account (HSA) to manage out-of-pocket costs with a qualified high deductible health plan?

Highmark offers you the support you need to answer these questions and more. We want you to have the plan that works best for your needs—so you can be ready for anything.

Metal Levels and Essential Health Benefits

When you are shopping for one of Highmark's Affordable Care Act (ACA) health insurance plans, it's important to know about metal levels and essential health benefits.

Metal Levels

Highmark's ACA health plans are grouped in metal categories: Bronze, Silver and Gold. These levels are based on how you and your health plan split the costs of your health care. They are simply ways to categorize plan payment levels. **They do not describe the quality of care you receive.**

Essential Health Benefits

All Highmark ACA plans include these essential health benefits:

- Ambulatory services, such as primary care and specialist visits
- Maternity and newborn care
- · Emergency services
- Prescription drugs, including retail and mail order
- Pediatric services, including dental and vision care

- Mental health and substance abuse services
- Rehabilitative and habilitative services and devices
- Hospitalization
- · Laboratory services
- Preventive and wellness services, and chronic disease management

You May Qualify for Financial Help. It's Easy to Check.

Most people who buy insurance through the Marketplace are pleased to learn they can get help paying for insurance. Before you enroll, you should find out if you can get this help to lower the cost of your monthly premium. To start, check the 2019 Household Income Chart below.

You may qualify for one or both kinds of financial help:

- Advanced Premium Tax Credits (APTC), which may be applied—in advance—to lower what you pay each month for your premium on any Marketplace metal-level plan.
- Cost-Sharing Reductions (CSR)* will lower out-of-pocket costs that you may pay at the time of service for doctors' visits, lab tests, drugs, and other covered services. You can only get these savings if you enroll in aMarketplace Silver metal-level plan.

Eligibility for financial help can only be determined through the Marketplace at HealthCare.gov.

Here are some commonly used health insurance plan terms to help you.

BlueCard – A national program that enables Blue Plan members to obtain healthcare services while traveling or living in another Blue Plan's service area. The program links participating healthcare providers with independent Blue Plans across the country and in more than 200 countries and territories worldwide. The level of *BlueCard* access is dependent upon your plan's details. Refer to your plan documents for additional information.

Coinsurance – The costs of your care are shared between you and the insurance company. Coinsurance is the part of your medical bill that you pay after reaching your deductible. So if your medical bill for covered, in-network services is \$100 and your coinsurance is 20%, you pay \$20. The insurance company pays \$80.

Copay or Copayment – A fixed dollar amount (like \$25) that you pay each time you receive certain covered health care services.

Deductible – The amount of money you must pay for health care services before your health plan starts to pay.

An **embedded deductible** has two parts: an individual deductible and a family deductible. Each family member can meet but not exceed his/her own deductible before the family deductible is met. (Individual deductibles add up to meet the family deductible.)

With a non-embedded family deductible, the amount of the deductible can be met by one family member or by a combination of family members. The health plan does not begin to pay for any individual medical expenses until the family deductible is met.

Emergency Medical Condition – An illness, injury, symptom, or condition so serious that a reasonable person would seek care right away to avoid severe harm.

Emergency Room Care – Emergency services you receive in an emergency room.

Emergency Services – Evaluation of an emergency medical condition and treatment to keep the condition from getting worse.

EPO (Exclusive Provider Organization) – A health plan that provides benefits when care is received from network providers. Out-of-network care is not covered (except in an emergency).

Formulary – A list of prescription drugs covered by your health plan. In a tiered drug formulary, drugs are assigned a level or tier. Each tier has a different copay or coinsurance. You usually pay less when your doctor prescribes drugs in the lower tiers.

Habilitative Services – Health care services that help you keep, learn, or improve skills and functioning for daily living. Examples include therapy for a child who isn't walking or talking at the expected age. These services may include physical and occupational therapy, speech-language pathology, and other services for people with disabilities in a variety of inpatient and/or outpatient settings.

High Deductible Health Plan (HDHP) – These plans have higher deductibles than traditional health plans. Qualified HDHPs may be combined with a health savings account (HSA) that you can fund with tax-deductible contributions up to annual limits published by the IRS. You can use the HSA to pay for unreimbursed "qualified" medical expenses. Please note that not all HDHP plans are Qualified HDHPs.

HMO (Health Maintenance Organization) – This type of health plan usually covers care only from providers who contract with the HMO. Out-of-network

care is not covered (except in an emergency).

In-Network/Network Providers – A doctor, hospital, or other provider in the plan's network. In-network providers have agreed to accept a certain rate for people with that plan. You pay less when you use an in-network provider instead of an out-of-network provider. (In certain circumstances, a plan may have a contract with an out-of-network provider.)

Out-of-Area Provider – A doctor, hospital, or other provider outside your plan's service area.

Out-of-Network Provider – A doctor, hospital, or other provider who does not have a contract with your health insurer to provide services to you at a discount. You will generally pay more to see an out-of-network provider.

Out-of-Pocket Costs – The copayments, coinsurance, and deductible amounts you have to pay.

Out-of-Pocket Maximum – The most you have to pay out of your own pocket each benefit period (usually a year). After that, your health insurance company pays 100% of the cost for covered services.

PPO (Preferred Provider Organization) – In this type of health plan you pay less if you use providers in the plan's network. You can also use providers outside of the plan's network, but will generally have higher out-of-pocket costs.

Premium – The amount of money you pay each month for your health insurance. You must pay this amount every month, even if you don't use services that month.

Preventive Care Services – Routine health care, like screenings, well visits, and checkups, to help prevent illnesses, disease, or other health problems.

Primary Care Provider (PCP) – The doctor or medical professional who provides most of your basic care, such as yearly preventive visits and screenings. In most cases, your PCP will coordinate your care with specialists, health care facilities, and other providers.

Qualified Health Plan (QHP) – An insurance plan certified by the Marketplace. It must provide the 10 essential health benefits, follow established limits on cost-sharing (like deductibles, copayments, and out-of-pocket maximum amounts), and meet other requirements.

Rehabilitative Services – Health care services that help you keep, get back, or improve skills and functioning for daily living that have been lost or impaired because you were sick, hurt, or disabled. These services may include physical and occupational therapy, speech-language pathology, and psychiatric rehabilitation services in a variety of inpatient and/or outpatient settings.

Retail Clinic – Convenient walk-in centers for quick and less complex health needs that can be served outside the doctor's office. Generally open in the evenings and on weekends. Services include treatment of uncomplicated illness or preventative care.

Telemedicine/Virtual Medicine – Contacting and receiving health care guidance from a doctor in real time by using a smartphone, tablet, or computer.

Urgent Care Center – A walk-in center that you can use when your doctor is unavailable, such as evenings and weekends, or when you have an illness or injury serious enough that you need care right away, but not serious enough for a trip to the emergency room. Urgent care visits are usually less costly than going to the emergency room but more costly than a PCP visit.
